

## CLIXX CURVE magnetic tracks - SPOT65

The CLIXX CURVE modules can only be used with the CLIXX CIRCLE profiles. Our CLIXX CURVE magnetic LED module SPOT65 has a dimension of 56 mm x 124 mm. The spot features a honeycomb lens which filters the light and allows it to illuminate targeted areas. Like the other spots in this collection, this spot can also be rotated 360°. This makes it possible to illuminate your favorite painting. It can also be directed at a cabinet wall in the kitchen. Our CLIXX CURVE magnetic LED module SPOT65 is often used in shops, hotels and offices, but is also perfect for a living room, kitchen and bedroom. The CLIXX CURVE SPOT65 is made of durable aluminum with a powder-coated finish. This spotlight is available in black and white. For the CLIXX CURVE LED module, choose the dimming method that matches the dimming method of the CLIXX CIRCLE profile.
