

CLIXX magnetic track - WASH27

With our CLIXX magnetic LED module WASH27 you can easily illuminate surfaces, because this module is oriented sideways. The wall washer integrates completely into the CLIXX profile and projects a wide beam of light onto the surface. It is ideal for evenly illuminating a wall or curtains. The WASH27 LED module can be used in application areas such as shops, offices and hotels, but is also suitable for a living room, kitchen or bedroom. The CLIXX magnetic LED module WASH27 is made of durable aluminium and powder coated. These modules are available in the colour black. For the CLIXX LED module, choose the dimming method that corresponds to the dimming method of the CLIXX profile.
