

# TUBE SLIM FLOOR LAMP

TUBE SLIM | TUBE SLIM FLOOR LAMP

## TUBE SLIM Floor lamp

The TUBE SLIM floor lamp is characterized by its elegant design. The profile has a diameter of only 16 mm, which is very slim. The TUBE SLIM floor lamp has an integrated LED light source at the back of the fixture. This allows the floor lamp to illuminate the room and objects indirectly. An integrated LED light source offers a higher light output and a longer lifespan.

The TUBE SLIM floor lamp can be easily attached to the ceiling. At the bottom of the lamp there is a weighted base that holds the lamp in place, creating a special effect. The lamp can be powered by simply plugging it into a wall socket. The lamp can be adjusted between 2.20 m and 3 m.

The TUBE SLIM floor lamp comes standard with a color temperature of 3000K, which generates a neutral warm-white light. Suitable for applications such as homes, hotels and restaurants.
