# Orbiter®

## Illumination | Reshaped

The ultra-bright LED point source with a variety of optics.

All systems in Orbiter are completely new and designed with versatility in mind. Orbiter's new six-color light engine delivers a wide-color gamut and outstanding color rendition across all color temperatures along with industry-leading, smooth dimming from 100-0%. With its changeable optics, Orbiter can transform into many different types of lampheads including projection (profile), open face, soft light, and other future possibilities. Orbiter's state-of-the-art technology and versatile design makes it an optimal lamphead for today and for the future with endless possibilities for updates, configurations, and enhancements.

### ORBITER FEATURES:

- Variety of optics including: open face, projection, dome, and light banks
- ARRI Spectra six-color, wide gamut light engine
- Extremely powerful output for maximal brightness and perfect colors
- Lighting Operating System (LiOS) with powerful software features
- Weatherproof housing
- Integrated color sensor for matching ambient light
- Removable, intuitive control panel
- Full suite of connectors and sensors
- Perfected smooth dimming to zero
- Internal power supply, wireless DMX, and battery input
