

### Sport Insert Installation

**1** Installing the ZÜCA insert in the ZÜCA frame is easy. First, take the insert and open the main front zipper. Reach inside and form the insert into the shape of the frame. Next, **remove the back of the fabric fastener**, but don't remove the wax paper just yet.

**5** Locate **fabric fastener tabs** that hold the insert to the back of the frame and fasten them. You're almost done. Just one more step...

**2** Turn the frame upside down and look under the seat between the telescoping handle and the round grip hole. There are two spaces where you will adhere the fabric fastener strips you set aside earlier. Now with the wax paper removed, **affix the fabric fasteners to the underside of the seat, as shown.**

**6** From the main opening, fold the floor panel down inside the insert, and form the insert to the frame.

**Adhere the fabric fastener at the top of the insert to the fabric fastener you placed under the seat.** Make any last needed adjustments so that your insert sits smoothly in its frame.

**3** Next, **place the insert** into the opening of the frame. Unzip the zipper tubes located on both sides of the main opening so that you can zip them around the front metal tubes. Be sure to start the zipper on a straight section of the front metal tubing; it is easier to get started here than on the curved section. Also, be sure the zipper is mated completely before you start zipping.

**4** Zip down both zippers a short distance. Then slide into place over the curved section of the metal tubes and finish zipping. **Fold over both ends with the protective fabric fastener tabs** located at the top and the bottom of each zipper tube.

### Care

ZÜCAs are hand washable. Close all fabric fastener tabs and hand wash your ZÜCA insert in cold water with mild soap. Rinse well and hang dry or you may also dry in its frame.

HAND  
WASH

COLD  
WATER

MILD  
SOAP

HANG  
DRY

### Warning

DO NOT STAND ON YOUR ZÜCA.  
DO NOT SIT ON YOUR ZÜCA WITH THE HANDLE UP.  
DO NOT RIDE YOUR ZÜCA OR PULL SOMEONE SITTING ON YOUR ZÜCA.

THE ZÜCA SPORT IS DESIGNED TO HOLD A NORMAL SITTING LOAD OF UP TO 300 LBS PROVIDED YOUR ZÜCA IS ON A FIRM LEVEL SURFACE.
