The story of KEOLA®

At Sewosy, we have created KEOLA® with the intention of **anticipating our clients' expectations.**

Designed and manufactured in Alsace, KEOLA® marks a turning point towards an era **where technology integrates seamlessly into everyday life**, offering simplicity, security and connectivity simultaneously. At the heart of our initiative, this system symbolises the ultimate combination of **innovation and adaptation**. KEOLA® is not only there to respond to your specific needs, but also to **your story.**

The choice of the name 'KEOLA®', meaning 'precious life' in Hawaiian, conveys our commitment to a **more human and safety-conscious approach**. This name marks our progress towards an era of connected systems, whilst highlighting our focus on **protecting what is precious to you.**

With this name, we express our wish to leave a positive imprint and to reinforce the idea at the heart of our agenda: security. That is how KEOLA®'s story will mark **the beginning of so many other stories.**

KEOLA®
BY SEWOSY

Give life to your access

A system inspired by HYBRID technology,
combining standalone and centralised
access control, brought KEOLA® to life.

Made in France

BLUETOOTH® 4.2 (Low Energy 2,4 GHz) + WiFi® (2,4 GHz)

Secure and end-to-end encrypted link, from the server (cloud) to your smartphone.

Functionality

- Online or offline mode
- No consumables or subscriptions are required. Access management, configuration and programming with your smartphone
- Unlocking access remotely or on site via touch screen. On site, hands free operation for optimal user comfort

Flexibility

- Quick and easy installation, avoiding the cabling constraints of a centralised system
- A unique application, with user-friendly multi-site configuration and programming
- Add users in the blink of an eye: email invitation, fast and GDPR compliant registration

Security

- Complete security, from the manufacturing process through to every stage of use
- In partnership with connected devices industry leaders:

KEYFACTOR

A colour for each status

Presence detector

Unique LED signature

Pink anodised finish
