Description:

- **CleanSeal Vet** Vet spray patch for all animal species for minor superficial injuries, scrapes and surgical wounds.
- The patch is a protective barrier against bacterial infection that occurs in dirty and humid conditions e.g. open fields, stables and bedding
- In addition to the aseptic effect, **CleanSeal Vet** will support the natural healing process on wounds in circumstances where normal dressing is not possible or difficult to apply and maintain.
- Immediate action.
- Instant protection against infection and bacteria.
- Waterproof and breathable.
- Easy to use.

CleanSeal Vet ingredients:

Norflurane

Ethyl acetate

Acrylates copolymer

Nitrofurural

Application:

- For minor superficial injuries, scrapes and surgical wounds.
- Clean the wounds carefully before applying **CleanSeal Vet**.
- Spray a thin layer of **CleanSeal Vet** onto the affected area from 5 - 10 cm and allow to dry.
- Apply one layer of **CleanSeal Vet** - applying multiple layers inhibits access of air to the wound and compromises the natural healing process.
- Drying time is approximately 2- 3 minutes.
- Do not spray on wounds which are massively bleeding.
- If the wound has been cleaned with water, it is strictly necessary that it is dry before applying **CleanSeal Vet**.
- The patch will vanish after 3-4 days. If necessary the application may be repeated.

Effect:

CleanSeal Vet gives instant protection against infection and bacteria that occurs in the animals environment, and support the natural healing process of wounds.

CleanSeal Vet is a water resistant and "breathable" patch, which supports a rapid healing of the wound.

Safety:

CleanSeal Vet Vet is safe to use on all animals. CleanSeal Vet has been widely tested on both animals and humans, and no negative side effects were observed.

Benefits with CleanSeal Vet:

- Immediate action.
- Instant protection against infection and bacteria.
- Water resistant and breathable.
- Easy to use.
- Invisible.
- The patch will vanish after 3-4 days.
