

# Quick Reference Card replacing the Adrianna U-shape chrome, stainless steel or black spout

Replacing the Adrianna U-shape chrome, stainless steel or black spout is not that difficult. Please follow the instructions below. For this part no tools are required to replace.

Before starting the replacement of the chrome, stainless steel or black spout make sure the water mains are closed.

Chrome metal, stainless steel or black U-spout for Adrianna tap, art.no. S1300007, S1300009 or S1300015

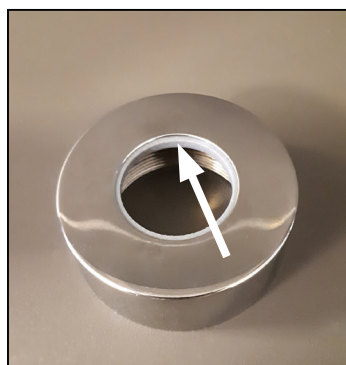

**Step 1**  
Loosen the nut that secures the tap spout on the tap body.

**Step 2**  
Continue step 1.

**Step 3**  
Remove the spout, it is normal that it gives some resistance.

**Step 4**  
Remove the nut from the old spout and ensure that the plastic bush remains in the nut.

**Step 5**  
Place the nut over the new spout.

**Step 6**  
Tighten the nut firmly on the tap housing so that all play is gone.

## Warranty period

- 12 months on the U-spout from day of purchase.

## Warranty conditions

- When claiming under the warranty, the model of the tap should be mentioned.
- The purchase invoice indicating the date of purchase must be submitted.

## The warranty applies only if:

- There are material and construction faults (all this at the discretion of the manufacturer);
- no constructive changes or modifications have been made to the tap;
- the defect is not a consequence of own fault, negligence or improper use.

## Liability

Neither HotSpot Titanium nor your installer/retailer accept any liability for damage or bodily injury of any kind resulting from:

- failure to follow the instructions in this manual;
- carelessness during installation, use, maintenance and repair of the system;
- use not in accordance with the application;
- the use of components not supplied by the manufacturer;
- consequential damage due to leakage.

The HotSpot Titanium 3-in-1 taps only operate with an original HotSpot Titanium boiler. See the user and installation manual of the boiler.
