Please keep this user manual safe for future reference.

Packing List

the Smart Vase Light

Type C USB Charging Cable

Instruction Manual

the Flower Tube

Product Charging Instruction

The product is usually arrived with 70% charge: However, before using, please fully charge it first by following the instructions as below:

1. Take the type C USB charging cable out from the box
2. Connect the USB charging cable to any USB plug adapter with a **5V output** i.e. a smartphone charger or a USB port on the computer.
3. Gently connect it to the charging port on the product, see below photo.

[NOTE]

When charging, the indicating light next to the charging port will light up red; After fully charged, the indication light will turn green.

How to use this Product?

STEP 1 : GENTLY open the light per the direction in the left photo in 360 degrees and both wood covers will be magnetised together.

STEP 2 : GENTLY push the flower tube into the vase light through the top centre as per left photo ;
(please be careful if the tube is loaded with water)

STEP 3 : put a flower or any decorative object into the tube, see photo on the right as an example;

STEP 4 : push the Power Switch to the ON position to turn on the light and enjoy the great impact created from this beautiful design :-)

NOTE: you may also use it just as a normal light without the tube and flower object, as per your preference.

What is the Smart Vase Light Made of?

We care for the environment as much as you and providing something which is sustainably designed and made is also our key product philosophy to our business

The Smart Vase Light is made of natural and sustainably sourced wood and water-resistance tyvek paper. The wood or tyvek paper might be also from the recycled source.

Warranty & Product Care

Warranty

This product is covered under one year manufacturer warranty starting from the date of purchase. Within the warranty period, any repair service or components replacement will be provided for free.

Warranty does not apply to the following circumstances:

1. Product failure due to improper use, misuse, drops, abuse, alteration, faulty installation, power line surge or modification
2. Product failure due to acts of nature such as natural disaster, fire, flood, or casualty.

Product Care

1. The product is made of natural wood, any natural wood grains on this product is not a product fault.
2. Any drop of this product could cause damage to the device.
3. This product is not water proof, however, the tyvek paper is water resistant.
4. Please carefully push in and take out the tube from the light, especially when it's loaded with water.
