

SM-M SERIES STICKY MATS White 24" x 36"

30-Layer Medium-Strength Sticky Floor Mats

Key Features

- ▷ 30 layers of polyethylene
- ▷ Acid free (pH 7) water based acrylic adhesive
- ▷ Dimensions: 24" x 36" / 61 x 92 cm
- ▷ Color: white
- ▷ Thickness: 40 µm/disposable sheet
- ▷ Numbered corner pull-tabs indicating number of remaining sheets
- ▷ Strong, non-toxic adhesive coating
- ▷ Uniform adhesive for each disposable sheet
- ▷ Anti-microbial property

Applications

- ▷ Suitable for cleanroom entrances and general applications
- ▷ Widely used in industries including microelectronics, semiconductor, biotechnology, pharmaceutical and construction

Technical Data

↳ Performance Characteristics

Property	Value
Film thickness	
Cover sheet	40 µm
Each disposable sheet	40 µm
Bottom sheet	40 µm
Adhesive force	
Each disposable sheet	350 g/25mm
Bottom sheet	550 g/25mm
Elongation	
MD (machine direction)	> 200 %
CD (cross direction)	> 150 %

Notes:

1. To avoid damage and distortion, store sticky mats horizontally and do not place heavy objects on top of them.
2. Store sticky mats at room temperature - extreme cold or heat may cause adhesive to harden or break down.
