

# Compact Bucket System

Stainless steel cart with removable handle and **three** 3.9-gallon (15L) polypropylene buckets

## Description

The compact bucket system with removable handle is easy to maneuver and to store in any facility. The system can be used with two or three rectangular buckets, depending on cleaning protocols.

The durable yet lightweight cart has four heavy-duty Kryptonite™ casters. All four casters swivel for ease of maneuvering in confined spaces and can be locked to secure the cart while in use.

The buckets interlock preventing drips between buckets. The entire system and related buckets are autoclavable at 121°C for 30 minutes.

### Available Accessories:

**2639** – Stainless Steel mop removal tool (for VertiKlean® MAX™)

### Sieves:

2689 – flat sieve fits 15L buckets

# Flat Mop Wringer, Stainless Steel

One piece wringer for All Contec Flat Mops, fits 25L and 15L buckets

## Description

The Flat Mop wringer is used to wring solutions from any flat style mop up to 18 inches (46cm) in length. The perforated plate and angled bottom allow quick and thorough drainage of solution from the mop making it easy to clean and maintain. They fit Contec's autoclavable 25 liter plastic buckets, which are offered in three colors (red, blue, or gray). The Flat Mop Wringer is made from 100% Type 304 stainless steel and fully autoclavable and resistant to most common chemicals and disinfectants. Lightweight, durable, and compact making it easy to store. Ideal for double bucket protocols.
