CONTEXT[™] Cleanroom Documentation, 18lb

Munising® LP Cleanroom paper and notebooks

Description

Designed for use in controlled environments, CONTEXT uses Munising® LP Bond material that provides optimal smoothness and enhanced writability with a low risk of particle and fiber generation. Made from synthetic polymersaturated cellulose, CONTEXT has very low extractables, is dimensionally stable, and is compatible with laser printers and copy machines. Fully autoclaveable with a recommended cycle of 121° C for 30 minutes.

Recommended for ISO classes 3-7. It is the responsibility of the user to validate product suitability for their application.

See page 2 for part numbers and available sizes.
