

Polynit Heatseal Wipe, Enhanced Sorbency

100% knitted polyester sealed-edge wipe

Description

The Polynit Heatseal Wipe is constructed of 100% textured knitted polyester. The wipe is laser-cut, which seals the edges of the fabric. The result is a very clean wipe, with a nonabrasive edge that allows complete utilization of the wipe's surface. Suitable for all ultra-critical applications, the fabric has also been specially processed to provide excellent sorbency while maintaining extremely low levels of particles, fibers, and residue. Laundered and packaged in an ISO Class 4 cleanroom.
