

# QuickTask™ Polypropylene Mop Head Frame + Stainless Steel One Piece Handle 150 cm

### Description

The Contec QuickTask floor wiper with polypropylene mop frame and 150 cm (fixed) stainless steel handle offers a very efficient way to clean and disinfect larger surfaces at a competitive set price.

The Contec QuickTask floor wipers have been developed in such a way that the user is able to imitate the "pulling and lifting" of manual cleaning with a cleanroom cloth. As a result, contamination can be removed very efficiently from the surface to be cleaned, such as cleanroom walls and floors.
