

# PISTON-BASED JET PROPELLED TUBE CLEANING

## Nylon Coiled Brush

Goodway Nylon Coiled Brushes incorporate a revolutionary piston design. They feature durable nylon bristles set in a coil, wrapped around a wear resistant polymer core. Superior to wooden dowel cores, Goodway's piston design allows the brushes to be quickly inserted into the tubes and helps maximize the cleaning effectiveness of the bristles. They are ideal for removing soft to medium deposits from condenser and component heat exchanger tubes.

**Nylon Coiled Tube Brush:** Available for tubes 5/8"-1 1/4" O.D. with BWG ranges 16-22. CB15 brushes cover 1 1/8" + 1 1/4".

**Additional sizes available – Call for Prices and Quantity Discounts**

## FEATURES

- Piston design for maximum speed
- Color-coded for easy identification
- Reusable
- For smooth bore tubes
- Compatible with QS-300, BSL-50
- Works with select non Goodway guns
