

# ScaleBreak-MP-EU

## industrial descaling solution

ScaleBreak-MP-EU is an industrial biodegradable descaler which will quickly and effectively dissolve calcium, lime, rust, biofouling, and other water formed deposits from water cooled/heated equipment. When applying ScaleBreak-MP-EU in your equipment, it should be circulated through the water passages. As the product comes in contact with the deposits, they are dissolved into a liquid suspension. Upon completion of the cleaning the used solution is freely flushed from the system along with the dissolved deposits leaving no residual solution.

Multi-purpose formula is safe to use on nearly all base metals.

### Cleaning-in-place applications

Plate heat exchangers

Water-cooled chillers

Use ScaleBreak-MP-EU to clean systems from well-known suppliers and manufacturers, such as: Alfa Laval, York, Carrier, TRANE, SWEP, Hexonic, Danfoss, Sondex, Tranter, Multistack, and more.

### Goodway descaling pump systems

GDS-C40

GDS-C92

GDS-100

Use Goodway pump systems to circulate ScaleBreak-MP-EU through the heat exchanger tubes or plates and/or other water operated equipment.

### ScaleBreak-MP-EU is available in:

20 liter cans

1000 liter IBC

ScaleBreak-MP-EU is produced in The Netherlands by Goodway Benelux which ensures fast delivery time and affordable prices.

### Multi Purpose Formula

Selecting the correct cleaning agent when cleaning technical equipment is very important. The cleaner needs to be safe, efficient, and effective. ScaleBreak-MP-EU offers an all-in-one solution to remove scale, rust, biofouling, and other water-formed deposits. This biodegradable descaler has a citric acid base and delivers high performance descaling. It is safe for prolonged exposure to stainless steel and eliminates the long-term potential of hydrogen embrittlement.

After

### Specifications

Because ScaleBreak-MP-EU is a multi-purpose blend, it can be used on virtually any base material. Furthermore, it is also safe for rubber, which means that gaskets remain unaffected during and after cleaning. Some examples of applications:

- Brass
- Plastic
- Titanium
- Rubber
- Glass
- EPDM
- Nitrile
- Santoprene
- Teflon
- Fiber
- Ceramic
- Silicone
- Copper/ Nickel (Stainless) Steel
