

ART FLAME

FURNITURE & ELECTRIC FIREPLACES

ABOUT US **ARTFLAME**

01. ARTFLAME

In 2009, our company started the production of Artflame branded fireplaces. The company's mission is to deliver warmth and comfort to every home, and electric fireplaces have made this a reality. Electric fireplaces are simple to install, do not cause difficulty to users, and provide warmth and harmony to the home at the touch of a button.

02. Почему мы ?

Our staff consists of professionals who are familiar with all of the nuances and processes involved in the creation of products, from the design and manufacture of fireplaces through logistics and commercial operations.

We are the market leader in Europe!

Our reliability and high credentials are ensured by our twelve years of market expertise. Each Art Flame product is our invention, which we make with passion and care.

03. Our purpose

Our products are constantly being improved, trying to make them more accessible, according to the trends, drawing attention to every detail. Our fireplaces are safe, easy to install and durable, to ensure the resistance to the test of time.

OUR SHOWROOMS AND ONLINE STRUCTURE

Art Flame showrooms have a wide range of fireplaces and fireplace sets, which are differentiated by the diversity of designs, styles and features.

We will provide you with the necessary consultation and support for the correct choice of the fireplace, taking into account the individual needs and requirements.

We will help you to find the ideal fireplace for you.

For each country we create the online sales platform.

RETAIL STANDARDS

ARTFLAME

Assortment

- A minimum assortment matrix is designed for each retail category, which must be implemented by the Art Flame sales department.
- This matrix includes the best-selling items that generate high interest at the sales points.

Trade (Commerce)

- The sales department takes the buyer's order, actively offers goods, and updates customers about new products and specials.
- Two to three times a month, sales personnel visit the location to evaluate stock levels in clients' warehouses.
- In their jobs, salespeople use marketing and commercial technologies.
