Appearance: White powder	Chemical formula : NaClO <sub>2</sub>	EG-Nr. 231-598-3
Art no. 9374.05	CAS : 7758-19-2	Purity acc. to Ph. Eur/USP/FCC

Characteristics	Spec - PS
-----------------	-----------

Sodium chlorite	80.00
Total alkalinity	1.0

Typical values

Sodium chlorate	0-1
Sodium chloride	7-9
Sodium carbonate	5-8
Sodium hydroxide	0.05-1
Sodium nitrate	-
Sodium sulphate	3-6

**Physical properties**

We hereby declare that the product conforms to the specification. The products are regularly checked for quality. The stated information and properties of the product are not a guarantee of particular properties and are not a statement as to the suitability of the product for particular applications. We therefore do not accept any claims with regard to this statement. In addition, the customer must carry out a goods entry check himself. No rights can be derived from this statement connected if forwarded to third parties.
