## FEATURES

- BENEFITS:** Strengthens the abdominal and lumbar muscles. Improves the flexibility and agility of the spine and hip. Improves the mobility of the upper and lower limbs, and the flexibility of joints.
- MANUFACTURING:** Tube structure made of galvanized steel with reinforced tread system and polypropylene handles.
- FINISHING:** Baked polyester paint, black and grey RAL9006 colour.
- INSTALLATION:** Available for installation on hard ground and soft ground.
- TECHNIQUE:** Mounted on the footrests and holding onto the handlebars, move your legs and arms as if you were pedalling.  
Since the equipment has moving parts, be very careful when getting on and off.
