Email account activation	Icons	
Shipping and return to Payment Methods	Graphical format for the home-category and product pages	
	Programmers start after agreement design	
	2 correction rounds	
	Lead time 4-6 weeks	

# 1. | General

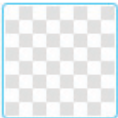

## 1.1 LOGO

You can adjust the logo and the favicon of your online store here. The maximum width of the logo is 220px (440px for Retina). The favicon should be 16 pixels wide and high.

Favicon

Logo

## 1.2 FONTS

It is possible to customize the fonts of general text on your website in this section.

### Titels (Google Web Fonts):

Select which font to use in the title.

### Body (Google Web Fonts):

Select which font to use for text.

Headings (Google Web Fonts)
  
Google Web Font for headings

Body (Google Web Fonts)
  
Google Web Font for body of site

## 1.3 TEXT COLOR

The DreamTheme allows you to adjust the color of text. Because one text color might not always create the desired effect, for example because contrast is insufficient, it is possible to set a primary and secondary text color.

### Primary text

Set the color of the primary text of the website. Examples are product, brand, category, and SEO texts.

### Secondary text

Set the color of the secondary text of the website. Examples are the USP bar and other texts.

<b>Primaire text</b> Define here the primaire text color.	<input type="radio"/> #FFFFFF
<b>Secundaire text</b> Define here the secundaire text color.	<input checked="" type="radio"/> #000000

## 1.4 NAVIGATION

### Navigation

Set the background color and text color of the navigation bar.

<b>Navigatie</b> Define the background color for the navigation	<input checked="" type="radio"/> #3A3E47
<b>Navigation text</b> Change here the color of the navigation text.	<input type="radio"/> #FFFFFF

### Header

When you choose a 'Header' menu layout, you will be able to set the color of the header here. When the header has not yet been activated in Layout > Menu, this option will not be functional. To use this function, you therefore have to activate 'Header' in Layout > Menu.

## Step one

### 02 - LAYOUT

<b>Menu</b> Select here which menu you prefer.	Header
<b>Indeling</b> Select here the layout of your theme.	Sidebar Header

## Step two

<b>Header</b> You can change here the color of your header. You need to activate 'header' at General > Navigation to use this setting.	<input checked="" type="checkbox"/> #000000
---	---

## 1.5 BACKGROUND

### Body

Set the background color of the theme.

### Background image

This is the image that will be used as the background of the entire website. The best image size depends on the following two options.

### Background position

Determines the positioning of the image that has been uploaded in the previous field.

### Background repeat

Determines the systematic displaying of the image. Example: will the image be displayed normally, or will it be repeated, thereby creating a pattern?

### Background size

Here you could determine the size of the background image. You could set the background image to 'Cover', so the image is stretched over the whole page. This is useful if you have a background image.

Body

Define the background color for the body.

☐ #FFFFFF

Achtergrondaafbeelding

Bladeren

Achtergrond positie

Positionering van de geüploade achtergrond.

Top left

Achtergrond herhalen

De manier waarop de achtergrond wordt herhaald.

No repeat - fixed

Background size

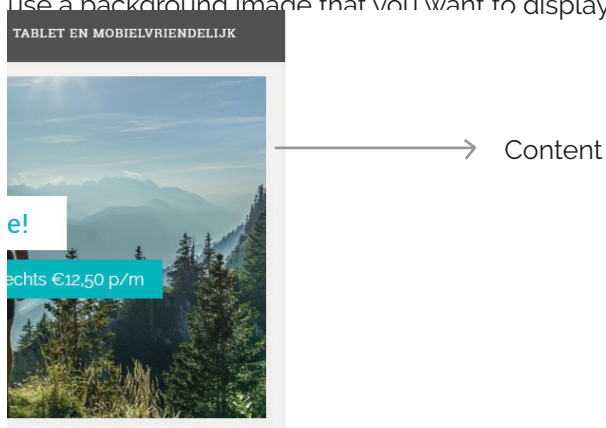

Choose here the size of the background image.

Cover

## Content

Set the color of the wrapper, i.e. the content of the website or everything that falls within the content. See the example below.

\*tip: When you set the wrapper as transparent, the content will become transparent too. Useful when you use a background image that you want to display in the content.

## 1.6 UNIQUE SELLING POINTS

Set the background color of the Unique Selling Points bar.

Unique Selling Points

Define here the background color of the usp bar.

☐ #464646

## 1.7 CONTENTBLOKKEN

### Content blocks

Set the background color of the content blocks. Examples include the product, category and brand description bars.

### Content text

If the primary text in the content blocks becomes unreadable, you will be able to manually set the color of the content block text.

<b>Content Blocks</b> Define here the background color of the categories, products and brands info bar	<input type="radio"/> #FFFFFF
<b>Content blocks text</b> Change here the text color of the content blocks.	<input checked="" type="radio"/> #000000

## 1.8 BUTTONS

Set the background color of the different buttons.

### Buttons

All buttons that do not have to be highlighted or that are not a call to action.

### Highlight

All highlighted parts, but predominantly website buttons.

### Call to action

All call to action buttons, i.e. all 'add to cart' buttons.

<b>Button</b> Button color	<input checked="" type="radio"/> #464646
<b>Highlight</b> Highlight color	<input checked="" type="radio"/> #00ADB4
<b>Call to action</b> Change here the color of the call to action (cart) buttons.	<input checked="" type="radio"/> #00ADB4

## 1.9 FOOTER

Set the background color of the footer.

### Footer

Define here the footer background color.

## 2. | Layout

### 2.1 MENU

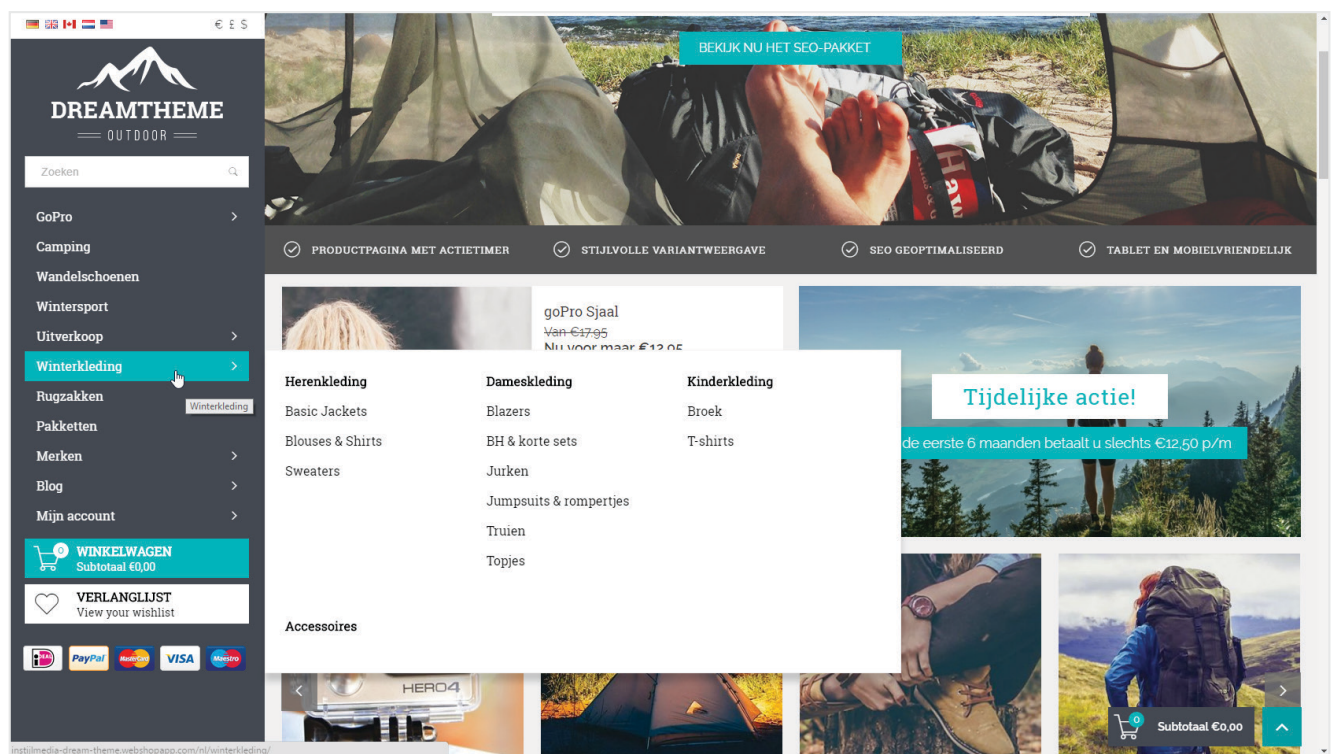

Select whether you would like to use a sidebar or header as the menu. Below you will find the results of setting the menu on sidebar and header.

<b>Menu</b> Select here which menu you prefer.	Sidebar
<b>Layout</b> Select here the layout of your theme.	Sidebar Header

#### Sidebar with mega menu

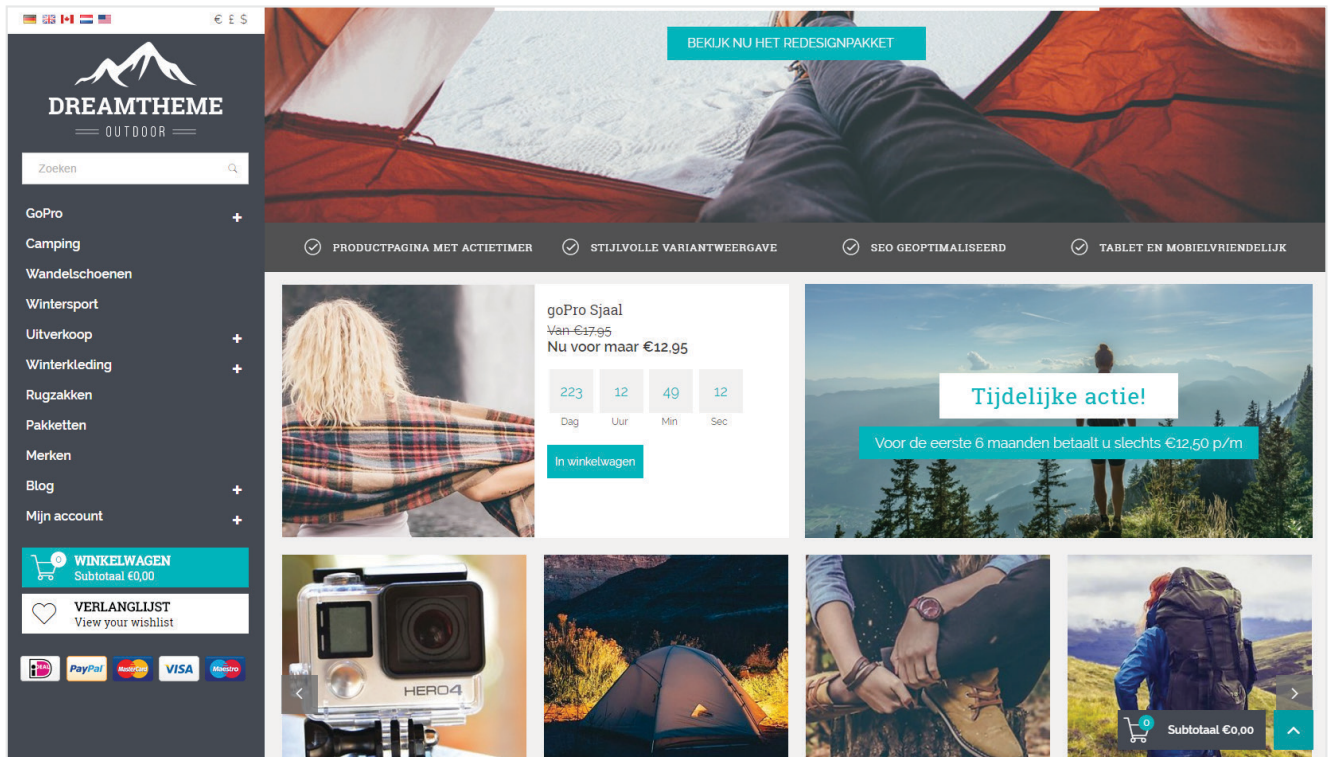

Select this option to display your categories in an attractive mega menu.

*Beware! When the menu is too long or contains too many items, the bottom part may disappear from the display. This menu does not handle large heights well, so it is limited in that regard.*

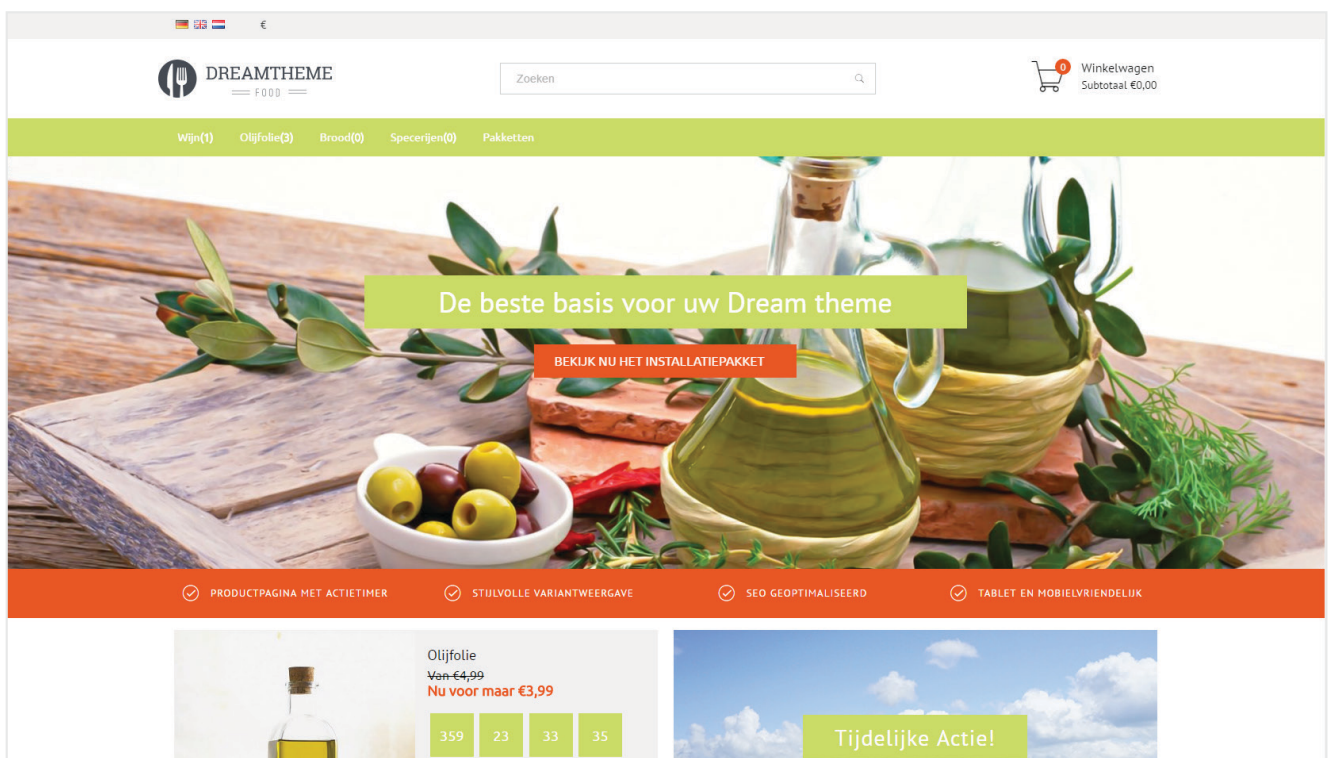

#### Sidebar with scroll bar

This menu is able to display an unlimited number of items. If the menu becomes too short, a scroll bar will appear on the right side with which you are able to scroll through all the menu items. A great alternative if you too many categories but still want to use the side bar.

## Header

## 2.2 LAYOUT

Set the layout type. The standard layout type is 'Fluid' but if you would like to use the 'Fixed' layout type, make sure that you have selected the 'Header' type under the 'Menu' subheading first. Otherwise, no visible changes will occur.

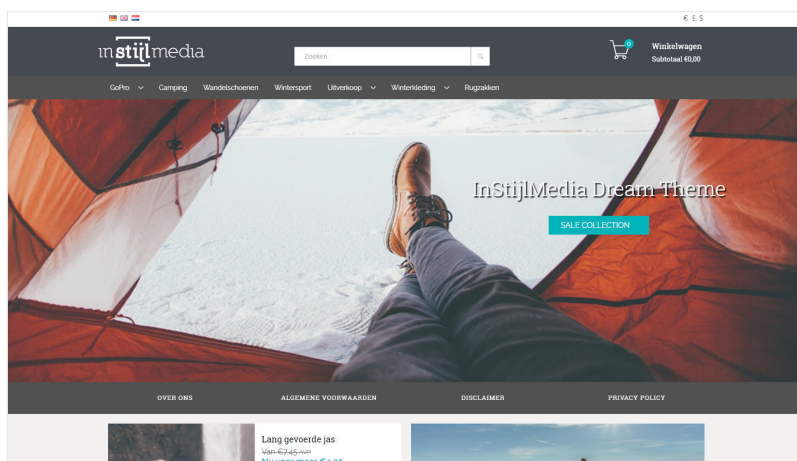

**Layout**  
 Select here the layout of your theme.

Fluid

**Row 1 - Countdown**  
 Enable/Disable the first row of the homepage

Fluid  
 Fixed

### Fluid

### Fixed

## 2.3 RIGHT CART WIDGET

It is possible to make the cart button on the right scroll down with the page. You will be able to activate this widget by ticking the checkbox.

**Scroll cart button**  
 Activate here the cart button right on your screen.

☒

## 2.4 USPs

The theme allows you to select the style in which you want to display the USPs, i.e. what will be displayed in the USP bar.

### Custom USPs

Add 4 USPs and select a matching icon.

### Headline USP

Add a sentence or the slogan of your online store.

### Service pages (limit 4)

The 4 uppermost text pages will be displayed in the USP bar with an accompanying link. Beware! No more than 4 text pages can be displayed.

**USP's style**  
 Choose here what you like to display in the unique selling points bar.

Custom USP

Custom USP  
 Headline USP  
 Service pages (limit 4)

**USP Icon 1**  
 Select here your Icon for USP 1.

## CUSTOM USP

You will be able to create your own USPs in this theme by entering a text and selecting a matching icon. For optimal results, it is important that you have filled in all 4 USPs.

<b>USP Icon 1</b> Select here your Icon for USP 1.	Truck
<b>USP 1</b> Write here the text of your first usp.	Plane Ship Shopping bag Shopping Basket Shopping cart Truck
<b>USP Icon 2</b> Select here your Icon for USP 2.	
<b>USP 2</b> Write here the text of your second usp.	Snelle levering
<b>USP Icon 3</b> Select here your Icon for USP 3.	Creditcard
<b>USP 3</b> Write here the text of your third usp.	Veilig betalen
<b>USP Icon 4</b> Select here your Icon for USP 4.	Clock
<b>USP 4</b> Write here the text of your fourth usp.	14 dagen bedenktijd

## HEADLINE USP

If you select Headline USP, you will be able to manually enter a text that appears in the USP bar. For example, to display a discount coupon or the slogan of your store.

<b>Headline USP</b> Type here your headline usp. (headline USP must be selected)	Receive 30% discount on every dress!
---	--------------------------------------

## SERVICE PAGES (LIMIT: 4)

When you select Service pages, the first 4 service pages will be automatically selected. This requires no additional actions from you.

## 2.5 FOOTER

It is possible to precisely select which information you want to display and which information you want to hide in the footer. For example, you can select whether you want to display Tags, Contact and Google Maps, Footer top, or Footer bottom.

<b>Tags</b> Activate here the tags.	
<b>Contact and Google Maps</b> Select here to show or hide the contact and googlemaps block in the footer.	<div>Show ▼</div>
<b>Footer top</b> Choose here to show or hide the top footer part.	<div>Show ▼</div>
<b>Footer bottom</b> Choose here to show or hide the bottom of the footer.	<div>Show ▼</div>

## 3. | Slider

### 3.1 SLIDER CAPTION

Select which 'caption' you would like to display in the slider. You can choose from three options: content, a Kiyoh widget, or no caption

<b>Slider caption</b> Select if you would like to show content in the slider or your Kiyoh widget.	Content
<b>Slide animation</b> Select here the animation of the slider	Content Kiyoh None

#### Content

#### Kiyoh

### 3.2 SLIDER ANIMATION & NAVIGATION

#### Slider animation

Select the animation of the slider. You can choose between Slide and Fade. If you choose Slide, the sliders move from right to left. If you choose Fade, slide 1 will fade into slide 2.

<b>Slide animation</b> Select here the animation of the slider	Slide
<b>Slider navigation arrows</b> Activate if you would like to use navigation arrows.	Fade Slide

### Slider navigation

Select whether you want the navigation arrows in the slider to display.

<b>Slider navigation arrows</b> Activate if you would like to use navigation arrows.	<input type="text" value="Show"/>
<b>Slider title background color</b> Change here the background color fo the slider title.	<div> <div>Show</div> <div>Hide</div> </div>

## 3.3 SLIDER CONTENT

*To use this function, 'Content' needs to be selected in the 'Slider caption' submenu. Otherwise, adjustments made in this section will have no visible effects.*

Select the slider content color.

### Slider title background color

Select the background color of the slider title.

### Slider titles color

Select the text color of the slider title.

### Slider button background

Select the background color of the slider button.

<b>Slider title background color</b> Change here the background color fo the slider title.	<input type="radio"/> #FFFFFF
<b>Slider titles color</b> Color of the ttiles from the slider	<input type="radio"/> #FFFFFF
<b>Slider button background</b> Change here the color of the background from the slider button	<input checked="" type="radio"/> #00ADB4

### 3.4 SLIDER POSITION

#### Slider content position

Adjust the positioning of the slider content.

*To use this function, 'Content' needs to be selected in the 'Slider caption' submenu.*

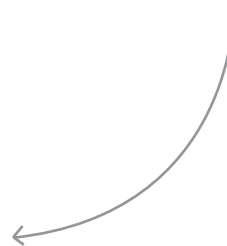

Slider content position	Right
Slider thumbnails position Define here the position of the thumbnails	Left Center Right

### 3.5 KİYOH WIDGET

The theme allows you to let a Kiyoh widget appear in the slider. To use this function, you only have to include the Kiyoh ID in the text box, as shown below.

*To use this function, 'Content' needs to be selected in the 'Slider caption' submenu.*

Slider kiyoh widget id Type here your kiyoh widet ID	13737
---	-------

### 3.6 CUSTOM SLIDERS

The theme uses custom sliders to avoid the compression that headline sliders are normally subjected to. You will be able to upload your own sliders in the Design > Settings menu.

#### Slider Image

Upload your slider image here.

- Suggested sidebar variant size: 1700px bij 600px
- Suggested header variant size: 1920px bij 600px

*\* The slider height is adjustable, but the sizes we have suggested here correspond to the sizes we have used in the preset theme.*

#### Slider Title

Set the title you want to display in the slider. This is an h2 tag at the same time.

#### Slider button link

Set the link that has to appear on the slider button.

*\* Beware! 'Slider button' has to be completed for this to function.*

#### Slider button

Fill in the text to appear in the slider button.

	Slider Image 1 <input type="button" value="Browse"/> <input type="button" value="Delete"/>
Slider title 1	InStijlMedia Dream Theme
Slider button link 1	http://instijlmedia-dream-theme.webshopapp.com/nl/int
Slider button 1	Interior collection

## 4. | Homepage

### 4.1 ROW 1 TO 6

The theme allows you to individually display or hide rows on the homepage.  
The rows have been divided as follows:

- **Row 1:** Top row displaying the action timer and banner.
- **Row 2:** Second row displaying the categories.
- **Row 3:** Third row displaying the products.
- **Row 4:** Fourth row, displaying the brands.
- **Row 5:** Fifth row, displaying the blog articles.
- **Row 6:** Sixth row, displaying the SEO content.

<b>Row 1 - Countdown</b> Enable/Disable the first row of the homepage	<input type="text" value="Show"/>
<b>Row 2 - Categories</b> Enable/Disable the second row of the homepage	<div> <div>Show</div> <div>Hide</div> </div>
<b>Row 3 - Products</b> Enable/Disable the third row of the homepage	<input type="text" value="Show"/>
<b>Row 4 - Brands</b> Enable/Disable the fourth row of the homepage	<input type="text" value="Show"/>
<b>Row 5 - Blog</b> Enable/Disable the fifth row of the homepage	<input type="text" value="Show"/>
<b>Row 6 - SEO</b> Enable/Disable the sixth row of the homepage	<input type="text" value="Show"/>

### 4.2 COUNTDOWN TIMER

The theme allows you to individually display or hide rows on the homepage.  
The rows have been divided as follows:

- **Timer block background:** Set the background color of the timer block.
- **Timer block text:** Set the color of the timer block text.

- **Timer Background color:** Set the color of the timers and the labels below.
- **Timer text color:** Set the color of the text in the timer.

<b>Timer block background</b> Choose here the background color of the timer block.	<input type="radio"/> #FFFFFF
<b>Timer block text</b> Choose here the color of the timer block text.	<input type="radio"/> #FFFFFF
<b>Timer background color</b> Change here the background color of the timer amount.	<input type="radio"/> #EEEEEE
<b>Timer color</b> Change here the text color of the timer amount.	<input checked="" type="radio"/> #00ADB4

The timer products are pulled from the 'Timer' category. You will thus have to create a category in your web shop named 'Timer', from which products will be pulled and added to the timer's waiting queue when the timer is switched on. The product limit is 24. Do not forget to deselect this category from the catalogue, otherwise it will appear in your menus.

### Timer

Checking this field will turn on the timer. Remember that the timer and banner can never be used simultaneously.

### Year

Set the starting year of the timer. (number, YYYY)

### Month

Set the starting month of the timer. (number, M or MM)

### Day

Set the starting day of the timer. (number, D or DD).

### Hour

Set the starting hour of the timer. (24-hour notation, so 0 is 00:00 and 20 = 20:00)

### Interval

Set the time period (in hours) for which products are visible. If you set this value to 24, every event in the waiting queue will take 24 hours.

<b>Year</b> Start year of timer. Format: numeric (YYYY)	<input type="text" value="2016"/>
<b>Month</b> Start month for timer. Format: numeric (MM)	<input type="text" value="03"/>
<b>Day</b> Start date for timer. Format: numeric (DD)	<input type="text" value="16"/>
<b>Hour</b> Start hour for timer. Format: numeric. 24 hour scale (HH) Example: 0 = 0:00, 20 = 20:00	<input type="text" value="0"/>
<b>Interval</b> Duration of each individual product in hours	<input type="text" value="8760"/>

## 4.3 BANNERS

### Banner links (action timer)

Size: 720x360px. This is the image that will be displayed when the countdown timer is inactive. This is also the image that will be displayed if the optional timer still has to start, or has run out.

### Banner url links (action timer)

If you fill in something here, the image will link to the URL you have provided.

	<b>Banner left</b> <input type="button" value="Browse"/> <input type="button" value="Delete"/>
<b>Banner url left</b> Type here the URL Off the banner when the timer is closed.	<input type="text"/>

### Banner right

Size: 720x360px. This is the image that will be displayed next to the countdown timer.

### Banner url right

If you fill in something here, the image will link to the URL you have provided.

	<p>Banner right</p> <div> <input type="button" value="Browse"/> <input type="button" value="Delete"/> </div>
<p>Banner url right</p> <p>Type here the URL Off the banner when the timer is closed.next to the countdown timer.</p> <input type="text"/>	

### Banner right title

Set the title of the right banner.

### Banner right description

Set the description of the right banner.

<p>Banner right title</p> <p>Type here the title of the banner right.</p>	<input type="text" value="Dream Theme"/>
<p>Banner right description</p> <p>Type here the description of the banner right.</p>	<input type="text" value="Order now and get free 50% discount"/>

# 5. | Collection

## 5.1 COLLECTION HEADER

### Header image (default)

Size: 1000x390px. Upload the banner that appears when no header banner is available on a given page. If you leave this empty, the whole header section will automatically disappear.

### Header read more button

Activate or deactivate the read more button in the header of the collection page.

Header Afbeelding (Default)

Browse

Collection header readmore

Activate here the readmore button in the header content block.

☒

### Expand filters

Set whether the filters appear expanded or not.

Filters unfolded

Unfold here the filters of the collectionpage.

☐

## 5.2 COLLECTION BANNER

### Homepage banner activate

Set the collection banner on the homepage.

### Collection banner activate

Set the collection banner on the homepage.

### Collection banner

Upload the collection banner image.

### Collection position

Set the position of the content (title + description) in the banner.

### Collection URL

Fill in the link you want to display in the collection banner. .

### Collection titel

Fill in the title you want to display in the collection banner.

### Collection description

Fill in the description you want to display in the collection banner.

<b>Homepage banner activate</b> Activate here the collection banner on the homepage.		<input checked="" type="checkbox"/>
<b>Collection banner activate</b> Activate here the collection banner on the collectionpage.		<input checked="" type="checkbox"/>
	<b>Collection banner</b> <input type="button" value="Browse"/> <input type="button" value="Delete"/>	
<b>Collection position</b> Select here the position of the tekst in your banner.	Left <input type="button" value="v"/>	
<b>Collection URL</b> Type here the Url of the collection banner.	<input type="text"/>	
<b>Collection title</b> Type here the collection title.	<input type="text" value="Dream theme"/>	
<b>Collection description</b> Type here the collection description.	<input type="text" value="This theme makes all your dreams come true."/>	

## 5.3 DISCOUNT CORNERS

*\*Beware! Some discount corners require you to activate the template data. You can do so by going to Settings > Workflow > Activate custom template data, as shown below:*

<b>Custom template data</b>	<input checked="" type="checkbox"/>
-----------------------------	-------------------------------------

### Sale

Set the color of the sale corner. The sale corner appears when you add 'sale' to a product description in Data 01, or when a product has an outdated price.

### New

Set the color of the new corner. The new corner appears when you add 'new' to a product description in Data 01.

### Bestseller

Set the color of the bestseller corner. The bestseller corner appears when you add 'bestseller' to a product description in Data 01.

### Sold out

Set the color of the sold out corner. The sold out corner appears when you add 'sold out' to a product description in Data 01, or when a product has sold out.

### Custom

Set the color of the custom corner. The custom corner appears when you add 'custom' to a product description in Data 01. You can also adjust the text of a custom corner by setting the custom title. *Beware! Text can get too long and may consequently not fit in a corner anymore, so please keep an eye on that.*

<b>Sale</b> Change here the color of the sale discountcorner.	 #FF7700
<b>New</b> Change here the color of the new discountcorner.	 #00BBFF
<b>Bestseller</b> Change here the color of the bestseller discountcorner.	 #68BD06
<b>Sold out</b> Change here the color of the sold out discountcorner.	 #BC062B
<b>Custom</b> Change here the color of the custom discountcorner.	 #AB00FF
<b>Custom title</b> Change here the color of the custom discountcorner.	<input type="text" value="Top"/>

## 5.4 PRODUCT DISPLAY

### Variants

Activate or deactivate the variants of each product on the homepage and the collection page. *This does NOT affect the variants on the product page.*

### Reviews

Activate or deactivate the review stars of each product on the homepage and the collection page. *This does NOT affect the review stars on the product page.*

### Cart

Activate or deactivate the cart button of each product on the homepage and the collection page. *This does NOT affect the cart button on the product page.*

<b>Variants</b> Activate here the variants of each product.	<input checked="" type="checkbox"/>
<b>Reviews</b> Displays reviews	<input checked="" type="checkbox"/>
<b>Cart</b> Activate here the cart button on each product.	<input checked="" type="checkbox"/>

## 5.5 NUMBER OF LABELS

Set whether you want the number of labels to be displayed on the collection and catalogue page, or in the sidebar menu behind the title.

<b>Category count</b> Activate here the category count at the sidebar and the categories.	<input type="checkbox"/>
<b>Catalog count</b> Activate the catalog count labels.	<input checked="" type="checkbox"/>

## 5.6 PAGINATION

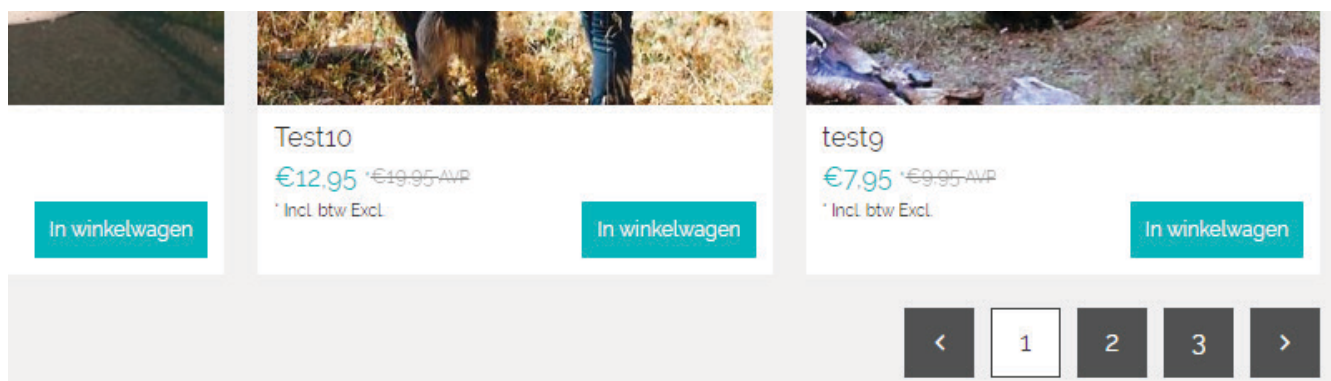

Select if you want infinity scroll to be activated on the collection page, or if you would like to divide the collection over several pages.

**Pagination**  
 Select here if you would like to use pagination or the infinity scroll.

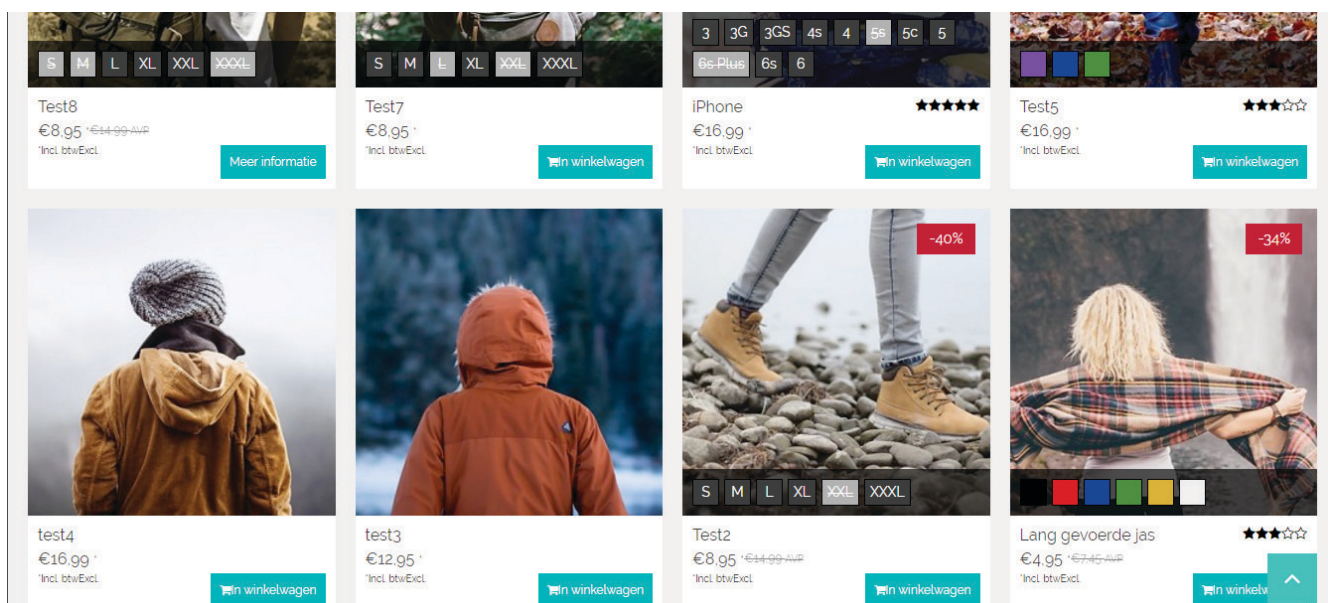

Pagination
 

Pagination
 Infinity Scroll

### Pagination

### Infinity scroll

## 6. | Product

### 6.1 PRODUCT INFO

#### Full title

Set whether you want to use the full title throughout the theme. *Beware! When activating the full title, the brand name will automatically be added to the product.*

#### Variant title

Set whether you want to display the variant title on the product page, below the product title, or not.

<b>Fulltitle</b> This displays the fulltitle of the product everywhere.	<input checked="" type="checkbox"/>
<b>Variant title</b> Activate here the variant title.	<input checked="" type="checkbox"/>

### 6.2 PRODUCT IMAGE

#### Zoom

Activate the zoom function on the product image.

#### Thumbnails products

Activate the left row of thumbnails. The right thumbnail row, next to the product image, is generated based on the tag you provide. *Beware! The thumbnail row will always use the first tag you provide. There is a limit of products that can be displayed next to the product image. For more information, contact InStijlMedia at [info@instijlmedia.nl](mailto:info@instijlmedia.nl).*

### 6.3 PRODUCT USP'S

In this theme, you will be able to generate your own USPs by adding text and selecting a matching icon. For optimal results, it is important that all 4 USPs have been filled in.

<b>USP Icon 1</b> Select here your icon for USP 1.	<input type="text" value="Calendar"/>
<b>USP 1</b> Write here the text of your first usp.	<input type="text" value="Bezorgen wanneer jij wilt"/>

# 7. | Other

## 7.1 CONTACT INFORMATION

Here, you will be able to fill in your contact information that will be displayed with Google Maps on every page. There is room for your name, address, zip code and city, email address, a phone number and a short additional description.

<b>Name</b> Contact name in footer	InStijlMedia
<b>Address</b> Fill in the address of your company.	Mors 11d
<b>Zipcode</b> Fill in the Zipcode and the place of your company.	NL - 7151 MX EIBERGEN
<b>Email</b> Contact email in footer	info@instijlmedia.nl
<b>Phone number</b> Contact phone number in footer	012-3456789
<b>Description</b> Contact description in footer	Werkdagen van 9:00 tot 17:00 uur

## 7.2 SOCIAL MEDIA

Here, you will be able to connect the social media platforms in the footer. There is room for a Facebook, Twitter, Google, Pinterest, YouTube, Instagram, and LinkedIn button.

<b>Facebook</b> Add your Facebook URL to display the Facebook icon in the footer	<a href="http://www.facebook.com/SEOshop">http://www.facebook.com/SEOshop</a>
---	---

<b>Twitter</b> Add your Twitter URL to display the Twitter icon in the footer	<input type="text" value="http://www.twitter.com/SEOshop"/>
<b>Google+</b> Add your Google+ URL to display the Google+ icon in the footer	<input type="text" value="https://plus.google.com/+SEOshopNL"/>
<b>Pinterest</b> Add your Pinterest URL to display the Pinterest icon in the footer	<input type="text" value="https://www.pinterest.com/SEOshop"/>
<b>Youtube</b> Enter here your Youtube URL to show the Youtube icon in the footer.	<input type="text" value="http://www.youtube.com/user/getSEOshop"/>
<b>Instagram</b> Enter here your Instagram URL to show the Instagram icon in the footer.	<input type="text" value="http://www.instagram.com"/>
<b>Linkedin</b> Enter here your Youtube URL to show the Youtube icon in the footer.	<input type="text" value="https://www.linkedin.com/company/seoshop-group-b-v-"/>

## 7.3 SHOPPING CART

The theme now allows you to customize the shopping cart to some extent. For example, you will be able to change colors and give the shopping cart a custom color. We have also created a sidebar on the right in which you can put a banner or your Kiyoh widget.

### Cart buttons

Set the color of all shopping cart buttons, except the order button.

### Cart highlight

Set the color of highlighted parts of the shopping cart, e.g. the shopping cart button and the total price.

### Cart header

Set the color of the headers of the other pages.

### Cart header tekst

Set the text color of the headers of the other pages.

<b>Cart buttons</b> Pick here a color for the cart buttons.	<input checked="" type="radio"/> #333333
<b>Cart highlight</b> Select here the cart highlight color.	<input checked="" type="radio"/> #00ADB4
<b>Cart headers</b> Select here the background color for the cart headers.	<input checked="" type="radio"/> #00ADB4
<b>Cart header text</b> Select her the color of the header text.	<input type="radio"/> #FFFFFF

## 7.4 WIDGETS

This is where you can activate the widgets in the right sidebar on the other pages. There is room for a banner and a Kiyoh widget.

### Cart banner

Size: 335x444px. Upload the banner for the right sidebar for the other pages here.

### Kiyoh

Provide the Kiyoh ID of your Kiyoh widget to activate it in the right sidebar and in the footer. *If the Kiyoh widget is also active in the slider, you will still have to provide the ID here. Otherwise, the widget will not be activated.*

Cart banner

Kiyoh

Type here your Kiyoh widget ID for the fixed pages.

## 7.5 VARIANTS

The color variants can be activated by setting the name of a color as the title of a variant. When no color title has been set or defined, a standard variant block will be displayed.

### INVENTORY & VARIANTS

Use tags to categorize products by properties such as color, size and material.

<input type="checkbox"/>	Title	Article code	Quantity	Price	
<input type="checkbox"/>	Red <small>DEFAULT</small>	AC-000123	100	€ 12,95	Action ▾
<input type="checkbox"/>	Yellow		100	€ 14,95	Action ▾
<input type="checkbox"/>	Blue		100	€ 14,95	Action ▾
<input type="checkbox"/>	Green		100	€ 16,95	Action ▾

## 7.6 PRODUCT COLORS

You will be able to link products by using tags, for example to display product colors on the product page next to the main image.

First, you will have to create a new product for every color. *Every variant is a separate product. The principle works similarly to related products.*

<input type="checkbox"/>	Product	Brand	Supplier	Price
<input type="checkbox"/>	 Purple Arcteryx Covert Hoodie Women's	None	None	€ 12,95
<input type="checkbox"/>	 Green Arcteryx Covert Hoodie Women's	None	None	€ 12,95
<input type="checkbox"/>	 Yellow Arcteryx Covert Hoodie Women's	None	None	€ 12,95
<input type="checkbox"/>	 Blue Arcteryx Covert Hoodie Women's	None	None	€ 12,95

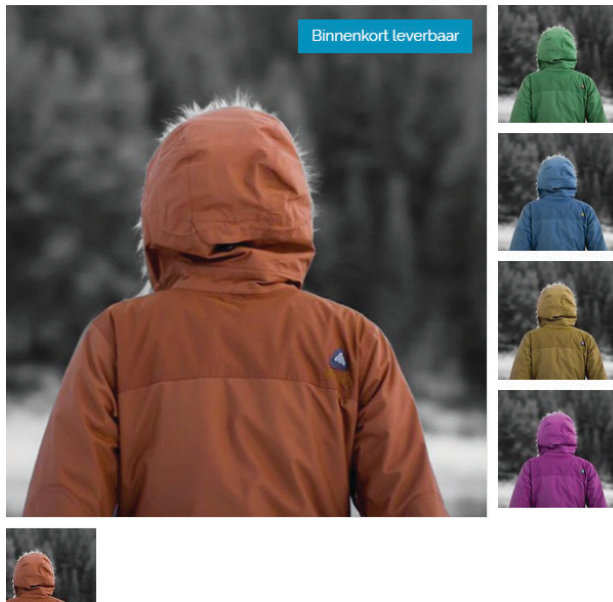

In the main theme, we have used the name of the product as a tag to link all related products.

# Tags > Arcteryx Covert Hoodie Women

In the main theme, we have decided to give the product "Arcteryx Covert Hoodie Women" different colors. These are separate products!

<input type="checkbox"/>	Image	Title	
<input type="checkbox"/>		Arcteryx Covert Hoodie Women's	
<input type="checkbox"/>		Yellow Arcteryx Covert Hoodie Women's	
<input type="checkbox"/>		Green Arcteryx Covert Hoodie Women's	
<input type="checkbox"/>		Blue Arcteryx Covert Hoodie Women's	
<input type="checkbox"/>		Purple Arcteryx Covert Hoodie Women's	

These products are displayed on the right, as shown in the example below. People will be able to easily switch between products and examine the different product varieties.

## 8. | Mobile

The theme allows you to select what your visitors see and what they do not see when visiting your store on their mobile devices. For deselected items, programming code will not be loaded. This helps improve the loading speed of your online store on mobile devices.

See Design > Settings for the possibilities.
