

COOLPLANTWALL® · INDOOR

Plant walls

A green wall that looks the same every day. No water,
no light, no maintenance.

What is a CoolPlantWall®?

A plant wall made of separate 90 × 90 cm panels, on a sturdy grid.

Three different base panels (A, B and C) ensure you do not see a repeating pattern. You can install them yourself or have our team do it.

Each panel can be complemented with extra plants, or with your logo.

€485

per m², incl. installation
excl. VAT

90 × 90

CoolPlantWall®, incl.
installation **€485 per m²**

Single panel 90 × 90 cm **€307.50 per panel**

Basic plant wall, incl.
installation **€249 per m²**

Bespoke, silk plants **€475 per m²**

Bespoke, fire-retardant **€575 per m²**

Prices excl. VAT. You will receive the fixed price in your proposal after the design. We will send the fire certificate on request; always align the requirements for your building with your fire safety consultant.

Send a photo of your space. We'll show you what's possible.

Send your question, floor plan or photos. You'll hear from us the same working day: what fits, what it looks like and what it costs.
