

Quality from Germany. Since 1785.

German engineering skills and craftsmanship have been recognised the world over for many a year. Long before the "Made in Germany" slogan underlined the fact, WITTE was renowned for its core values such as innovation, accuracy and reliability that are central to Germany. These are virtues that we uphold to the same extent as our commitment to Germany as a manufacturing location - both these aspects are indispensable parts of our identity and quality philosophy.

STRENGTH. KNOW-HOW. ERGONOMICS.

 **MADE IN GERMANY
SINCE 1785.**

 **WITTE**

Always one twist ahead.

WITTE offers its customers a well structured, comprehensive, state-of-the-art range of tools that leaves nothing to be desired. From professional tradespeople to DIY amateurs, whether distributors or end-users, we offer the right solution for every application. Flexible sales and branding concepts also make it possible for us to supply individual packaging and designs. This approach has enabled the enterprise to become one of Europe's premium manufacturers that also enjoys an excellent reputation both at home and abroad. This standard is not just maintained at this level – we are constantly striving to expand and develop our standards further.

The sophisticated art of the screwdriver.

It was in the year of 1785 that WITTE started manufacturing needles and pins. As mechanisation threatened to an increasing extent to replace tailors, saddlers and shoemakers, WITTE had already made itself a name as a manufacturer of tools for the nascent automotive and wagon manufacturing industries. During this period, the company developed the product that has continued to form the main basis of its success right up to today: the screwdriver. Since that initial period, WITTE has continuously perfected that tool like no other manufacturer – with the aid of unrelenting innovation, maximum attention to ergonomic design and materials and, of course, peak quality made in Germany.

Black tip

Accurately finished tips provide peak protection against corrosion and guarantee accuracy and correct fit

High-grade steel that is made in Germany

Hardened and tempered, extremely tough special steel guarantees optimum force transmission and long service lives

Roll protection

Multifunction zone

The extended multifunction zone allows faster screw tightening and unscrewing

Soft grip components

Enhance grip and provide better control of the tightening action

Patented, non-slip microfibre coating

Guarantees better grip and less slippage even with oily or moist hands

Laser head identification

Rounded triangular form

For maximum force transmission

Pliers & cutters

The outstanding craftsmanship used in every detail coupled with the highest grade materials dispels any doubts that, when it comes to quality, WITTE knows no compromises. Its claim to being a supplier of premium tools is borne out in the contours, centre of gravity and shape.

Bits

Thoroughly hardened and tempered materials enhance not only the appearance of the bits but also their functionality. At the same time, they guarantee extremely long service lifetimes and ensure user satisfaction while they work.

The KIRCHHOFF Group.

The KIRCHHOFF Group has its roots in the enterprise founded by Stephan Witte in 1785 for the manufacture of needles and pins in Iserlohn, Germany. Today's KIRCHHOFF Group, owned by the Kirchhoff family for four generations, consists of four divisions: KIRCHHOFF Automotive, KIRCHHOFF Ecotec, KIRCHHOFF Mobility and WITTE Tools. KNOWLEDGE.VALUES.CHANGE. – these are the fundamental principles that are also the motive force behind the rise and further development of the Group. They unite the more than 11,000 employees in the Group in line with our mission statement: WE.MOVE.FUTURE.
