SUSTAINABLE GRAPES

We believe in supporting (and drinking!) wine from expressive winemakers whose grapes are representative of their region and produced with maximum respect for the environment.

As such all of the wines we serve are carefully selected to support small, independent and family-run vineyards wherever possible.

If you have any questions about our wines or where they come from (or if you have any allergies) - please speak with a member of our team and we'll be happy to make a recommendation!

All of our wines are chosen by the team and sourced from local importers right here in Sussex & Surrey.

English Sparkling

English Sparkling Wine has achieved incredible success in recent years, often beating Champagne and other leading sparkling wines in international blind-tasting competitions. The quality from English producers is now truly world-class, and it's all happening right here in East Sussex!

Our favourite local winemaker is the Highweald Vineyard based in Cuckfield. They're the sister company to our friends at 360 Brewery Co. in Sheffield Park (where our Beer & Ale comes from). If you'd ever like to visit the vineyards for a tour and tasting, let one of our team know and we can help arrange a visit!
