

# BONE CONDUCTION

- BONE CONDUCTION** Vibrations go through the cheekbones and deliver sound directly to the inner ear (cochlea), bypassing the eardrum.
- AIR CONDUCTION** Sound waves travel through the ear canal and eardrum, delivering sound to the cochlea.

## WE HEAR THROUGH BONE CONDUCTION EVERYDAY

Many familiar sounds are heard through bone conduction including chattering your teeth, crunching on potato chips and scratching your scalp.

**BEETHOVEN**

Bone conduction was discovered by Ludwig van Beethoven, the famous 18th century composer who was almost deaf. Beethoven found a way to hear music through his jawbone by biting a rod attached to his piano.

**MILITARY**

The French Military's FELIN Program is equipped with over 20,000 bone conduction headsets.

**MEDICAL**

The Baha® bone conduction hearing implant has helped change the lives of more than 1120,000 people.

## MORE BASS LESS VIBRATION

OpenRun headphones are angled along your cheekbones, providing more dynamic bass and reducing vibration.

## 1000+ APPLIED PATENTS WORLDWIDE

Since its inception in 2011, Shokz has been enhancing lives and changing the way people experience audio with its unique use of bone conduction technology. Our headphones don't sit inside your ears. They don't sit over your ears. They don't even play music the same way your other headphones do. You might say our headphones are in a league of their own.

## SHOKZ IS PIONEERING INNOVATION IN SPORTS HEADPHONES

Top-rated Bluetooth sport headphones

Official headphones and race approved

Top 10 sports brand and No.1 headphones

Prestigious awards for outstanding design

## IP67 WATERPROOF

Submersible in up to 1 meter of water for 30 minutes. Completely sweat and waterproof with moisture detection alert when charging the headphones.

## BE OPEN WITH SHOKZ

Wearing headphones and reduced awareness while running, biking, and walking through traffic is a growing safety concern worldwide. Regulations governing headphone use while biking and driving are taking off. Join Shokz in our efforts towards safe movement.
