

TACTICAL ARC LIGHT

ARC LIGHT

The Arc Light shooting glasses were designed to protect those who serve. From first responders to our country's finest, these tactical glasses serve up military-grade impact protection, advanced lens technologies and an adjustable nose piece for unbeatable comfort. And they're easy on the eyes and the wallet. The top frame of the Arc Light was developed to keep the sun from attacking your vision from above and helps to keep glare at bay. Whether you're looking for a pair of Z87 sunglasses for the jobsite or shooting glasses for the range, the Arc Light delivers uncompromising style, protection and comfort. Plus, they come standard with our permanent anti-fog technology to keep your vision clear in foggy environments.
