“

Ordered two of these aprons for my elderly father who has had a stroke. Good quality and reasonably priced. Suits his needs perfectly as they are large enough to cover his outfits and comfortable to wear. They wash well. Overall I rate them an excellent purchase.

”

our story

Our Story that brings Hoogendijk Care together with Mum 2 Mum.

Hoogendijk Care is a distributor who supplies Mum 2 Mum products in Europe. We became a distributor to support the needs of growing European businesses who require a reliable supply of exceptional quality products.

Mum 2 Mum is a NZ based company who manufacture and sell award-winning products. Mum 2 Mum was started back in 2004 by young mums dealing with dribbly babies, reflux, eczema... you name it. Inspired to create practical and stylish products, their big break started with their signature range the Wonder Bib.

This led to customers who wanted a bib that worked well for their older children and elderly parents too. From here, Mum 2 Mum introduced the Plus Range to cater for the special needs sector.

The bibs from the Plus Range bibs are lightweight and waterproof and are ideal for nursing homes, skilled nursing facilities, home care, healthcare and hospital settings.
