

There's more than one clear-cut reason why you'd choose Henley over our other three kitchen collections. The first is if you're a lover of oak. Henley's the only kitchen where you can have oak cabinetry – exposed, natural, beautiful North American oak.

Henley

The second reason's that it's the only kitchen where you can mix your cabinetry finishes. You can have the Henley design in painted timber, in pure oak, or a mix of the two.

Then there's the character. Henley's not as minimal as Suffolk, but not quite as detailed as Chichester. It's that happy middle ground for those of you who didn't feel either of those were 'just right'.

HENLEY

“I fell for Henley, head over heels. It’s so simple but still classic and with regal undertones. In the end, what made me ultimately pick Henley was that it’s just what my heart wanted. I can’t really articulate it any better than that. I remember thinking to myself, I have to have that kitchen.”

Debbie, whose Henley kitchen was designed by Neptune Colchester.
