## CARE INSTRUCTIONS

- Washing: Wash at a maximum of 40°C to minimize shrinkage and protect the fabric. Use a mild liquid detergent and avoid overuse to prevent stains and wear.
- Centrifuging: Choose a low spin speed to reduce wrinkles and extend the lifespan of the fabric.
- Drying: Air-dry your bedding by hanging it up. If using a tumble dryer, select a low temperature to prevent shrinkage and wear.
- If needed, iron on a low setting while the fabric is still slightly damp for the best results.
- General Tips: Wash dark and light colors separately to avoid color transfer. Avoid bleach, as it can damage the fabric and cause fading.
