

FRANKLY AMSTERDAM

PRICE LIST
January 2025

TERMS AND CONDITIONS

Our general terms and conditions of sales apply to all our agreements, quotations and offers. Please find a copy at www.frankly.amsterdam/salesconditions or at the Chambers of Commerce Amsterdam number 34393141. The terms and conditions used by the other party shall be explicitly excluded.

Every product made from a natural material is unique. Therefore a small difference in size or color may occur. We strongly advise not to expose fabrics of our indoor products to direct sunlight.

Frankly Amsterdam is owner of the goods until they have been completely paid.

PRICES

Prices to public are issued in euros, including VAT.

SHIPPING

Goods travel at buyer's risk and danger: possible damages must be reported at delivery immediately. For transportation of our rugs we collaborate closely with shipping agencies specialised in high-end transportation. The rugs are shipped in rolls that have to be transported laying down, and can not be stacked underneath other cargo under any circumstance. Because of this precise method of transportation, damages in transport rarely occurs. Despite this, we advise you to check the roll upon receipt for any damages. Please make sure to confirm that the packaging and the roll are both still in tact.

Any unexpected damages discovered upon arrival must be noted on the loading bill. Alongside this, Frankly Amsterdam wishes to receive notice of the damages, including pictures of the damaged packaging. After the client signs for completed delivery, there is no possibility to claim transport damages.

SHIPPING COSTS

- Shipping costs for rugs vary per order depending on the number or rolls, size of the rolls, the country and the shipping method. Please see the overview of shipping costs on the next page.
- Shipping costs for curtain fabrics and upholstery fabrics are included in the m¹ price.
- Shipping costs for bedlinen, bed spreads and throws:
 - Austria: € 50,- excluding VAT. Shipping costs for high quantity orders are on request
 - Belgium: € 35,- excluding VAT. Shipping costs for high quantity orders are on request
 - Germany: € 35,- excluding VAT. Shipping costs for high quantity orders are on request.
 - The Netherlands: € 35,- excluding VAT. Shipping costs for high quantity orders are on request.
 - Switzerland: € 50,- excluding VAT and duties. Orders will be shipped DAP. Shipping costs for high quantity orders are on request.
 - Other countries: Shipping costs on request
- All orders under €350,- (purchase price excluding VAT) are subject to a surcharge. The freight/administration surcharge is €29,-

DELIVERY

The delivery time of our tufted rugs is 6 weeks including transportation. The delivery time of our woven rugs and wall rugs is 8 weeks including transportation. The delivery date stated on the order confirmation is approximate and free of obligation. This shall not be considered to be a strict deadline unless a certain delivery date is explicitly guaranteed by Frankly Amsterdam.

For tufted rugs we can offer a quick delivery sevice. If the requested yarn is on stock, the rug can be shipped within 48 hours or 2 weeks. Feel free to contact us for the conditions and prices.

EUCALYPTUS COLOR BOX

WHY EUCALYPTUS?

Eucalyptus has a number of great advantages:

- + its smooth surface and soft touch
- + longlasting shine
- + amazing moisture management
- + naturally antibacterial
- + suitable to sensitive skin

Eucalyptus is also a responsible material in many ways:

- + the wood for this fibre comes from sustainable European forests
- + 99,5% of production solvents are recovered and re-used
- + requires only 2,8% of the water needed to produce cotton
- + the fibre is completely biodegradable
- + we have a responsible dyeing process

OUR COLOR OPTIONS

We have an extensive range of color options for our Eucalyptus yarn:

- + 110 uni colors for Move Slow, Perfect Match & Chasing Light qualities
- + 51 uni colors for At Random and Colour Me qualities
- + a possibility to mix your own color out of these uni colors
- + a possibility to have custom colors lab-dyed (contact us for more info)

WOOL COLOR BOX

WHY WOOL?

- + stainresistant and naturally anti-bacterial
- + natural and effective moisture management
- + excellent natural elasticity
- + a strong and soft fiber
- + highly wear-resistant
- + naturally heat regulating, suitable in all seasons

Wool is also a responsible material in many ways:

- + our Wool comes strictly from sheep living in Europe
- + the Wool fiber is completely biodegradable
- + Wool is a renewable product
- + our processes are all animal friendly
- + the dyeing of our Wool yarn is 100% ecological

OUR COLOR OPTIONS

We have an extensive range of color options for our Wool yarn:

- + 110 uni colors for the thicker Wool yarn (100% virgin Wool)
- + 81 colors for thin Wool yarn (a mix of 20% Mohair and 80% virgin Wool), used in En Suite
- + a possibility to mix your own color out of these uni colors
- + a possibility to have custom colors lab-dyed (contact us for more info)

NEW ZEALAND WOOL COLOR BOX

WHY WOOL?

- + Soft and warm: suitable for sensitive skin.
- + Absorbent: natural and effective moisture management.
- + Resilient: wool has great natural elasticity, causing it to recover to its original shape.
- + Naturally anti-bacterial: resistant to bacteria and thus suitable for people with allergies.
- + Resistant to moist: wool is not sensitive to moist.
- + Longwearing: a strong fibre when wet or dry and therefore very wear-resistant.
- + Our wool yarn is recovered strictly from sheep living in Europe.
- + The wool fiber is completely biodegradable.
- + Wool is a renewable product. After the sheering of the sheep, their wool fleece just grows back. In fact, the sheep need to be sheered for their own well-being.
- + The sheering of the sheep is done in an animal friendly manner.
- + The dyeing of our wool yarn is 100% ecological.

OUR COLOR OPTIONS

- + Colors can be used uni as well as mixed. The maximum amount of colors mixed in wool yarn is 2 colors.

CUSTOM COLORS

Next to all standard color options in this box, the wool yarn can also be lab-dyed in any requested color! Please ask us about the terms if you are interested. Please also note that the production-time will increase with approximately 2 weeks. + Colors can be used uni as well as mixed. The maximum amount of colors mixed in wool yarn is 2

MOHAIR COLOR BOX

WHY MOHAIR?

- + a strong and soft fiber
- + deep and brilliant colors
- + stainresistant and naturally anti-bacterial
- + natural and effective moisture management
- + excellent natural elasticity
- + highly wear-resistant

Mohair is also a responsible material in many ways:

- + the Mohair fiber is completely biodegradable
- + Mohair is a renewable product
- + our processes are all animal friendly
- + the dyeing of our Wool yarn is 100% ecological

OUR COLOR OPTIONS

We have an extensive range of color options for our Mohair yarn:

- + 110 uni colors for all Mohair qualities, like Super Moon, En Suite and Full Circle
- + a possibility to mix your own color out of these uni colors
- + a possibility to have custom colors lab-dyed (contact us for more info)

BAMBOO COLOR BOX

WHY BAMBOO?

- + soft to the skin
- + velvet look with a luxurious appearance
- + vibrant coloring with a melange look
- + anti-bacterial and suitable for people with allergies
- + smell resistant

BamboO is also a responsible material in many ways:

- + BamboO yarn is environmental friendly
- + it comes from a natural and sustainable source
- + it is a renewable source and the fastest growing woody plant on our planet
- + it releases abundant oxygen into the atmosphere
- + the dyeing of our BamboO yarn is eco-friendly

OUR COLOR OPTIONS

We have an extensive range of color options for our BamboO yarn:

- + 77 uni colors for BamboO qualities like Day Light and Show Off
- + a possibility to mix your own color up to 6 colors from the color box
- + a possibility to have custom colors lab-dyed (contact us for more info)

BIODEGRADABLE PET COLOR BOX

WHY BIODEGRADABLE PET?

- + thanks to its PET characteristics, this yarn is exceptionally strong, making it an excellent choice for high-traffic areas
- + the transformation process of post-consumer PET bottles into yarns results in a wool-like softness
- + this non-absorbent yarn is effortless to maintain
- + incredibly easy to clean
- + hypoallergenic, making it a suitable option for individuals with allergies

Biodegradable PET is a responsible material in many ways:

- + made from post-consumer recycled plastic bottles
- + recycling a single PET bottle can conserve enough energy to light a 60 watt bulb for up to 6 hours
- + under the correct circumstances this yarn is 100% biodegradable within 12 months in landfill and/or sea water

- + Soil left behind from the degradation process contains no plastic and remains perfectly suitable for plant growth
- + It is important to note that this PET is only biodegradable under the correct circumstances and should not be mixed with regular plastic waste.

OUR COLOR OPTIONS

- + 35 uni colors
- + a possibility to mix your own color up to 6 colors from the color box
- + a possibility to have custom colors lab-dyed (contact us for more info)

COTTON COLOR BOX

WHY COTTON?

- + anexceptionally soft and fluffy texture
- + a fiber that can be easily washed and cleaned
- + it offers a dense appearance with a remarkably soft touch
- + hypoallergenic, making it a suitable option for individuals with allergies
- + due to its natural characteristic, Cotton yarn is highly absorbent, preventing electrostatic charging
- + resilient yarn which can recover into it original shape

Cotton is also a responsible material in many ways:
+ the OKO-TEX STANDARD 100 GMO guarantees every component of this product has undergone rigorous testing to eradicate any harmful substances

- + made out of organic cotton, meaning only natural methods and no toxic chemicals have been used during the farming process
- + the seeds to produce organic cotton are non GMO (free of contaminations)
- + a renewable resource that is 100% natural and therefore biodegradable

OUR COLOR OPTIONS

- + 55 uni colors
- + a possibility to mix your own color up to 10 colors from the color box
- + a possibility to have custom colors lab-dyed (contact us for more info)

CARE INSTRUCTIONS INDOOR RUGS

All our products are made with care and attention. In order to keep them as beautiful as they are, please mind the following care instructions:

- We advise you to vacuum the rug once or twice a week with a normal (upright or cylinder) vacuum cleaner but without the brush or beater bar engaged. Rugs with a high pile need to be vacuumed more often.
- Do not use a vacuumer with a rotating brush, this will damage the yarn.
- Rugs made from natural materials are subject to some pilling during the first few months. This is a common characteristic of natural cut fibers and will disappear after 3 or 4 months of normal use.
- A dry environment can result in extra pilling of the yarn. A humidity between 50-70% will benefit the lifecycle of your rug.
- In order to avoid 'regular use marks', we advise you to turn the rug every once in a while.
- Wet stains need to be removed immediately, before the yarn absorbs the fluid. Absorb the stain using a strong absorbing paper (like kitchen paper). Do not, in any case, rub or put pressure on the rug when wet. This can damage the fibers and the structure of the rug.
- Light stains can safely be treated with JAMES cleaning agents, which have been succesfully tested on our products. Please follow the instructions of the JAMES staindisc, also shown on our site. We can not guarantee safe use of cleaning agents by any other brand, since they have not been tested.
- Please do not use highly acidic cleaning agents to remove stains from your rug. This will cause discoloration of the yarn.
- In case of heavy staining or transferred dirt, we advise you to always have your rug drycleaned by a specialist in rug cleaning. Please state clearly that this rug needs to be cleaned without using water.
- When in doubt, please don't hesitate to contact us, or take a look on our website, www.frankly.amsterdam/careinstructions, for more information.

CARE INSTRUCTIONS OUTDOOR RUGS

- We recommend regular (monthly) cleaning of the outdoor rug.
- Vacuum the rug with a normal (upright or cylinder) vacuum cleaner without the brush or beater bar engaged. Avoid vacuuming over 1200W.
- After vacuuming, you can use cold water with a pH neutral soap or a non-ionic detergent to remove all dirt on both sides of the rug. Dry the rug in the sun afterwards.
- Stains need to be removed as soon as possible. Absorb the stain using a strong absorbing paper (like kitchen paper) or a clean cloth.
- Remove stains using pH neutral soap or dish soap and scrub it gently with warm water.
- Do not use highly acidic cleaning agents to remove stains from your rug. This can cause discoloration of the yarn.
- In case of heavy staining we advise you to always have your rug cleaned by a specialist in rug cleaning.
- To avoid the rug getting moldy hang or lay down the rug in sunlight on a clean surface. For the rug to be completely dry, alternate the sides.
- If there's no drainage under the rug, move it to sunlight to air dry properly.
- In areas with regular rainfall or high humidity, woven rugs are recommended instead of tufted rugs.
- If you would like to storage your outdoor rug you need to clean it properly first. Make sure you never fold your rug. You have to roll it up, wrap it in plastic and secure it with tape for example.
- When in doubt, please don't hesitate to contact us, or take a look on our website, www.frankly.amsterdam/careinstructions, for more information.

WARRANTY

- Frankly Amsterdam guarantees its rugs for 2 years of normal use.
- All our products are made with care. In case a manufacturing defect escaped our attention, please inform us within 14 days after delivery and leave the product unused.
- Small differences or irregularities in color, weft or size may occur. This is inherent to the use of natural fibers and has to be accepted when within normal commercial tolerances.
- Frankly Amsterdam will not accept any complaint if shading is concerned.

This pattern is not on scale, this image only shows the pattern direction

The cutting and seaming together of a flatweave is a precise and time consuming process with the resulting join likely to be variable in appearance. The durability of seams cannot be guaranteed in multi-width installations, therefore we do not recommend side-to-side or end-to-end joins in a flatweave product. In case seams are desired, it is advisable to use a metal binding strip in case of head seams OR use a carpet seam sealer to seal the edges after cutting.

Your order will be cut from a roll of 2 meters or 4 meters width. Please include the cutting loss in your order. If you need any help calculating this, we are glad to be of service. Rectangle, square and round shapes are possible. For prices and special shapes please contact us.

Depending on your requested size, a roll of 2 meters or 4 meters width will be selected for cutting. The roll width of 2 meters is available up to 7,5 linear meters maximum. All orders that require an amount of linear meters above 7,5 meter will be cut from a roll of 4 meters width.

* Click here to see the overview of our edge finishing options and maximum rug sizes.

** Only complete rolls can be purchased. Roll lengths vary from 100-150m². Please contact us for the lengths of the rolls.

PLEASE NOTE! Prices shown are public prices including VAT. Please inform for your purchase conditions. The price per m² does not include installation and shipping costs. Click here to see the overview of shipping costs per country (page 3).

RUG EDGE FINISHING OPTIONS

Overlock edge finish (1 cm)
This edge finish is available for:

- All Star
- Easy Going
- Front Row
- Good Life
- High Tide
- Next Step
- No Doubt
- On Return (straight or rounded corner)
- Step up 9 (straight or rounded corner)

Wool overlock edge finish
This edge finish is available for:

- Lay Out
- Line Up
- Out Line

Border finish (3cm)
This edge finish is available for:

- All Star
- Easy Going
- Front Row
- Good Life
- High Tide
- Next Step
- No Doubt

Hand shaven edge finish
This edge finish is available for:

- Step Up 16.

Folded edge finish *
This edge finish is available for:

- Roll Over

Folded padded edge finish *
This edge finish is available for:

- All Star
- Front Row
- Next Step
- No Doubt

* Please calculate a 10 cm margin around all edges for a rug with folded edge. Maximum rug width for this finish is 380 cm. Rugs with a folded padded edge will have felted padding at the bottom, therefore they can only be used indoors and can not be used for stair runners.

	Contract C (wool)	12 samples in 1 box	€	125,-

CARE INSTRUCTIONS INDOOR RUGS

All our products are made with care and attention. In order to keep them as beautiful as they are, please mind the following care instructions:

- We advise you to vacuum the carpet once or twice a week for domestic applications and light use areas. For commercial applications and heavier traffic use, daily vacuuming is advised to reduce the presence and buildup of loose dirt particles.
- For flat weave carpets use a suction only vacuum to prevent distortion or pilling of the carpet surface. Do not use the brush or beater bar.
- While vacuuming, the starting point should be varied each time to make sure that the carpet is not always brushed in the same direction.
- Wet stains need to be removed immediately, before the yarn absorbs the fluid. Absorb the stain using a strong absorbing paper (like kitchen paper) or clean towel.
- High traffic area stains from castor wheels, luggage and service trollies may result in rubber transfer markings. Rubber markings may become sticky or attract dirt from foot and wheeled traffic builds up on the original stain. Remove rubber from the fibres using an approved gel type solvent. The treated area must be thoroughly rinsed out otherwise any remaining residue will continue to attract dirt.
- Light stains can safely be treated with JAMES cleaning agents, which have been successfully tested on our products. Please follow the instructions of the JAMES staindisc delivered with the James starter kit. Treating stains within 24 hours increases the possibility of successful stain removal, nevertheless, complete removal can never be guaranteed. The usage of a cleaning agent that is not tested on our products cannot be guaranteed for safe cleaning.
- In case of heavy staining or transferred dirt, we advise you to always have your rug cleaned by a specialist in rug cleaning.
- When in doubt, please don't hesitate to contact us or take a look on our website, www.frankly.amsterdam/careinstructions, for more information.

CARE INSTRUCTIONS OUTDOOR RUGS

- We recommend regular (monthly) cleaning of the outdoor rug.
- Vacuum the rug with a normal (upright or cylinder) vacuum cleaner without the brush or beater bar engaged. Avoid vacuuming over 1200W.
- After vacuuming, you can use cold water with a pH neutral soap or a non-ionic detergent to remove all dirt on both sides of the rug. Dry the rug in the sun afterwards.
- Stains need to be removed as soon as possible. Absorb the stain using a strong absorbing paper (like kitchen paper) or a clean cloth.
- Remove stains using pH neutral soap or dish soap and scrub it gently with warm water.
- Do not use highly acidic cleaning agents to remove stains from your rug. This can cause discoloration of the yarn.
- In case of heavy staining we advise you to always have your rug cleaned by a specialist in rug cleaning.
- To avoid the rug getting moldy hang or lay down the rug in sunlight on a clean surface. For the rug to be completely dry, alternate the sides.
- If you would like to storage your outdoor rug you need to clean it properly first. Make sure you never fold your rug. You have to roll it up, wrap it in plastic and secure it with tape for example.
- When in doubt, please don't hesitate to contact us, or take a look on our website, www.frankly.amsterdam/careinstructions, for more information.

WARRANTY

- Frankly Amsterdam guarantees its rugs for 2 years of normal use.
- All our products are made with care. In case a manufacturing defect escaped our attention, please inform us within 14 days after delivery and leave the product unused.
- Small differences or irregularities in color, weft or size may occur. This is inherent to the use of natural fibers and has to be accepted when within normal commercial tolerances.

* Roll length is ± 30 m¹. Please contact us for up-to-date roll lengths.

Fabric prices are calculated per linear meter. When ordering 1 m¹ of a fabric with a width of 280cm, you will receive 100 x 280cm fabric.

For quantities over 200m¹, please contact our sales department for project prices.

PLEASE NOTE! Prices are public prices and include VAT. Please inform for your purchase conditions. The price per m¹ is including shipping costs. Costs for tailoring and installation are not included.

MATERIAL GUIDE

COTTON (CO)

Cotton is a natural fiber made from the cotton plant. This material is known for being soft, breathable and absorbent. Cotton has good abrasion resistance and is biodegradable if not dyed or naturally dyed.

LINEN (LI)

Linen is a natural fiber made from the stem of the flax plant. Besides being very sustainable and biodegradable, this material is one of the strongest natural fibers and exhibits great abrasion resistance. Linen is also known for being hypoallergenic, non-electrifying, and renowned for its excellent colorfastness when exposed to sunlight.

WOOL (WO)

Wool is a natural animal fiber obtained from sheep and goats, which need to be sheared for their own well-being. Additionally, besides being 100% biodegradable, this material is highly resilient and elastic, very strong, and possesses excellent insulating and great anti-bacterial properties. In addition, this fiber is also naturally water repellent and has colorfast properties.

VISCOSE (CV or VI) / MODAL (MD)

Viscose, a cellulose fiber, includes Modal as one of its variations. This semi-synthetic fiber is derived from natural sources of regenerated cellulose, predominantly wood. Renowned for its exceptional absorption properties, viscose is easily dyed, and blends of this material are widely employed. Moreover, it offers a soft and luxurious touch and feel.

POLYESTER (PL, POL or PES)

PES is an acronym (shortened word) for Polyester.

Polyester is a type of artificial fiber used in textiles. Since polyester does not wrinkle structurally and is flexible, it is aimed to reduce the wrinkling rate of natural fabrics and to provide flexibility by mixing with natural fabrics. Mostly with cotton fiber can be used with wool, acrylic, silk, viscose, and linen fiber.

POLYESTER (PET)

Polyethylene terephthalate is Polyester and lends itself well to recycling. The Polyester fibres are used in fashion apparel often blended with cotton. In the context of textile applications, PET is referred to by its common name, polyester.

NYLON / POLYAMIDE (PA)

Nylon is recognized for its strength, yet it maintains a lightweight feel. Fabrics crafted from this material resist wrinkles and are not prone to humidity absorption. Renowned for its colorfastness and longevity, nylon is also resistant to bacteria and mold, and it's effortlessly easy to clean.

ACRYL (PAN) / POLYACRYL (PC)

Acrylic is a synthetic substitute for wool with the same touch and feel, but it is more colorfast and better resistant to prolonged exposure to sunlight. It effectively insulates heat and is lightweight. Additionally, it is easily washable and resistant to bacteria and mold.

SOFT FURNISHING SAMPLE PRICE LIST

ARTICLE	SAMPLE TYPE	SIZE	PRICE P/PIECE
Sample box	Soft furnishing box	12 colors	€ 110,-

BED LINEN SAMPLE PRICE LIST

CARE INSTRUCTIONS THROWS, BLANKETS & BED ENDS

All our products are made with care and attention. In order to keep them as beautiful as they are, please mind the following care instructions:

Come Over, Settle In and Soft Space are made of 100% Cashmere and can best be cleaned by a professional dry-cleaner. Ironing is possible on the cool iron setting.
Do not launder or tumble dry.

CARE INSTRUCTIONS BED LINEN

We recommend to line-dry your bedlinen. If you prefer to tumble dry please use a delicate program on a low temperature (not higher than the washing temperature).

CARE INSTRUCTIONS CURTAINS & UPHOLSTERY

- Professional dry cleaning of the curtain fabrics is advised.
- Before cleaning the curtains dust them. Either with the vacuum brush attachment on a low setting or shake them out.
- Cold wash the curtains at 30°C without spin or centrifuge cycle.
- Do not rub or wring fabric after washing.
- All fabrics can be ironed on low temperature or higher. Please see exact iron temperatures on the product page of the concerning product.
- When in doubt, please don't hesitate to contact us, or take a look on our website, www.frankly.amsterdam/careinstructions, for more information.

WARRANTY

- Frankly Amsterdam guarantees its rugs for 2 years of normal use.
- All our products are made with care. In case a manufacturing defect escaped our attention, please inform us within 14 days after delivery and leave the product unused.
- Small differences or irregularities in color, weft or size may occur. This is inherent to the use of natural fibers and has to be accepted when within normal commercial tolerances.
- Frankly Amsterdam will not accept any complaint if shading is concerned.
