## CHASING LIGHT

Available as	Rug, wall-to-wall, (stair) runner
Design	Remy Meijers
Size	Any size possible
Weight	4000 gr/m <sup>2</sup>
Height	8-12 mm
Technique	Hand tufted
Colors	6 Standard colors + 110 uni + any custom color
Color design	Remy Meijers
Material	100% Eucalyptus
Fire classification	Cfl-s1
Advantages	+ any size, pattern and shape possible + choose your own color (mix or uni) out of 110 uni colors (see Eucalyptus color box) + custom colors can be lab-dyed on request (ask about the terms and possibilities) + suitable for residential as well as soft contract

The Dutch architect Remy Meijers was inspired by vintage hardwood floors and the geometrical patterns they are often seen in. Mixing one of these patterns with our soft Eucalyptus quality resulted in the Chasing Light rug.

Eucalyptus yarn has great moisture-management. It absorbs the moisture completely and releases it to the outside, which makes the fibre naturally anti-bacterial. The yarn is appreciated for its smooth surface, softness and longlasting shine.

The wood used for this fibre comes from sustainable forests. During the production process 99,5% of all solvents are recovered and re-used. Both the Eucalyptus yarn and the natural latex backing are 100% biodegradable.

## CARE INSTRUCTIONS

- We advise you to **vacuum** the rug once or twice a week with a normal (upright or cylinder) vacuum cleaner but without the brush or beater bar engaged. Rugs with a high pile need to be vacuumed even more often.
- Do not use a vacuumer with a rotating brush, this will damage the yarn.
- Rugs made from natural materials are subject to some **pilling** during the first few months. This is a common characteristic of natural cut fibers and will disappear after 3 or 4 months of normal use.
- A dry environment can result in extra pilling of the yarn. A **humidity** between 50-70% will benefit the lifecycle of your rug.
- In order to avoid '**regular use marks**', we advise you to turn the rug every once in a while.
- **Wet stains** need to be removed immediately, before the yarn absorbs the fluid. Absorb the stain using a strong absorbing paper (like kitchen paper). Do not, in any case, rub the rug when wet. This can damage the fibers and the structure of the rug.
- **Light stains** can safely be treated with JAMES cleaning agents, which have been successfully tested on our products. Please follow the instructions of the JAMES staindisc delivered with the James starter kit. Treating stains within 24 hours increases the possibility of successful stain removal, nevertheless, complete removal can never be

guaranteed. The usage of a cleaning agent that is not tested on our products cannot be guaranteed for safe cleaning.

- Please do not use highly acidic cleaning agents to remove stains from your rug. This will cause discoloration of the yarn.

- In case of **heavy staining** or transferred dirt, we advise you to always have your Eucalyptus rug dry cleaned by a specialist in rug cleaning. Please state clearly that this rug needs to be cleaned without using water.

- When in **doubt**, please don't hesitate to contact us, or take a look at [www.frankly.amsterdam/careinstructions](http://www.frankly.amsterdam/careinstructions) for more information.

## WARRANTY

- Frankly Amsterdam **guarantees** its rugs for 2 years of normal use.

- All our products are made with care. In case a **manufacturing defect** escaped our attention, please inform us within 14 days after delivery and leave the product unused.

- Small differences or **irregularities** in color, weft or size may occur. This is inherent to the use of natural fibers and has to be accepted when within normal commercial tolerances.

- Frankly Amsterdam will not accept any complaint if shading is concerned.
