

# MyCheckr

Designed by Innovative Technology®

MyCheckr performs anonymous age estimation, to assist with the sale of age restricted goods.

It is a simple, low-cost solution that helps the server make informed decisions during the age check process.

Alternatively, MyCheckr can be integrated with host machines (e.g self-checkouts).

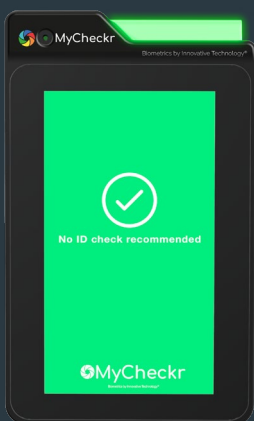

MyCheckr<sup>Mini</sup>  
Compact option available without screen

Conforms to  
**CHALLENGE 25**

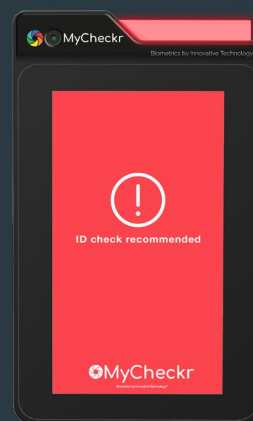

- All-in-one device, no integration required
- No data stored, GDPR certified by Age Check Certification Scheme (ACCS)
- Local processing with instant results

## How it works...

Device clearly shows the server if a manual ID check is recommended

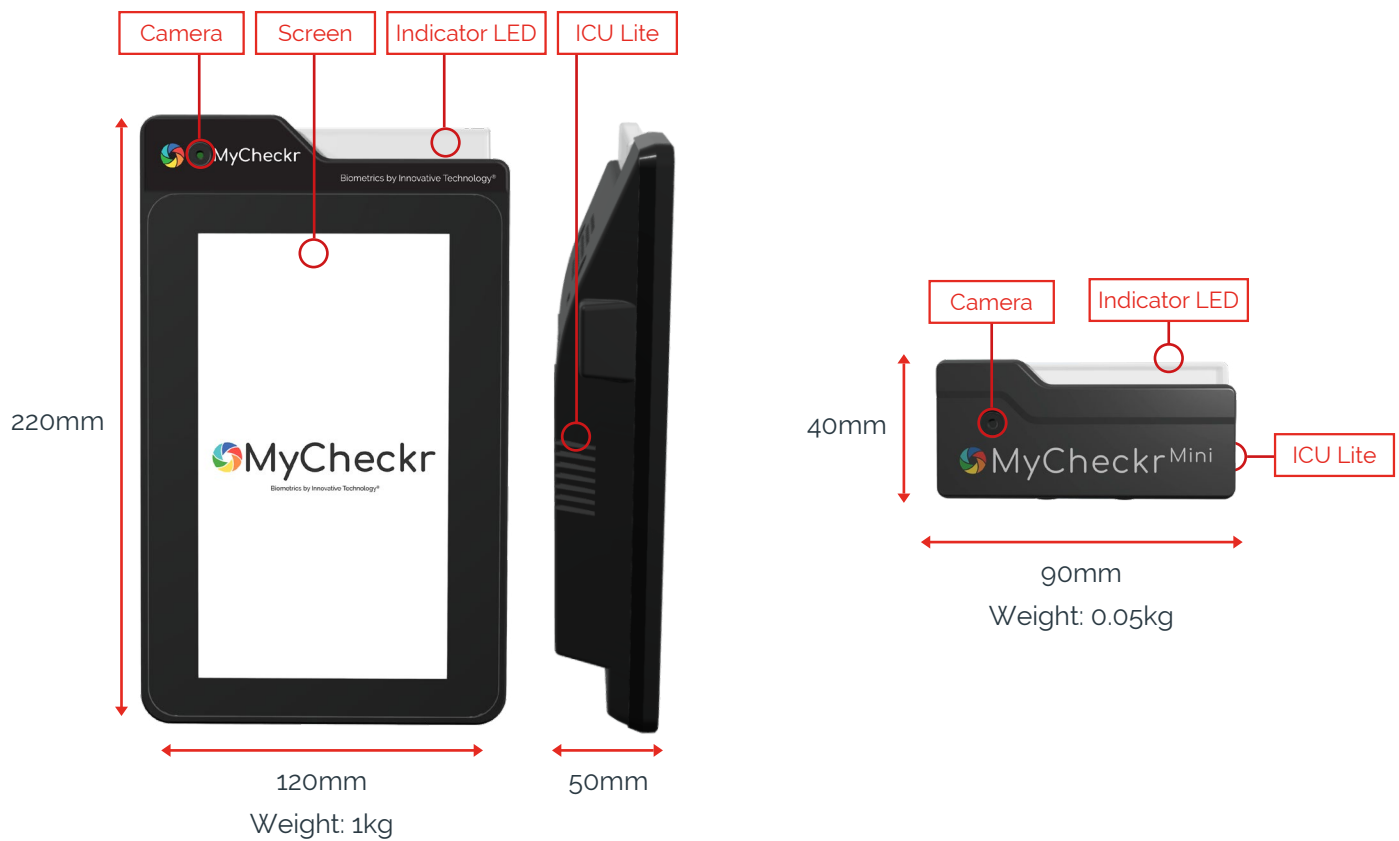

The person in front of the camera is 25 or over

The person in front of the camera is under 25

- ✓ No internet required
- ✓ No recurring fees
- ✓ World leading accuracy

### Prevent underage sales

A deterrent to stop underage customers attempting to purchase age registered goods

### Enhance customer experience

Helps reduce potential abuse when challenging customers for ID

### Meet licensing objectives

Helps secure licences in accordance with the UK Licensing Act 2003 objectives; protecting children from harm; preventing crime & disorder

## Did You Know...

The Association of Convenience Stores Crime Report 2022 found 'enforcing an age restricted sales policy' is one of the top triggers for violence against staff.
