

Specification Sheet and Manual

Led Panels - Sideview - RGB CCT

Installation manual

Introduction

This is a new RGB+CCT 2700-6500K led panel light solution stronger frame structure; Produce excellent and same intensity uniform light and high lumen output. Adopts high lumen SMD Osram Chips with CRI>80; Use Tuya & 2.4GHz wireless technology with the features of low power consumption, long signal transmitting and strong anti-interference, etc. Product has auto-transmitting function. Widely used on the controlling of commercial lighting and home decoration lighting. It can fit seamlessly into any work place, available in various installation ways: recessed, suspended and surface mounted.

Features

- Stronger structure: thickness of the frame is 11.5mm.
- RGB+white 2700K-6500K.
- SMD Osram Chips, 120~135lm/w luminous flux.
- 120° beam angle.
- Energy saving, environmental, high PF, flicker free, produce same intensity and uniform comfortable light.
- Tuya wifi control and 2.4GHz RF remote control.
- Anti-glare design, DC24,
- Installation: Surface mounted, Suspended, Recessed.

Application Areas

Office & school lighting: KTV, Karaoke Bar, Skating Rink, Hotel, office room, Restaurant, Bedroom, meeting room, class room etc. Horticultural, farm, greenhouse, Commercial lighting: shopping mall, super market, retailer shops etc. Other situations: hospital, laboratory, dust-free workshop etc.

Technical Data Sheet

Model No.		PAN-RGB -3030	PAN-RGB -3060	PAN-RGB -30120	PAN-RGB -6060	PAN-RGB -6262	PAN-RGB -60120
Dimension(mm)		295*295*11.5	595*295*11.5	1195*295*11.5	595*595*11.5	620*620*11.5	595*1195*11.5
Power for R/G/B		6W/6W/6W	8W/8W/8W	13W/13W/13W	13W/13W/13W	13W/13W/13W	26W/26W/26W

Electrical Class		Class II					
Ingress Protection (IP Rating)		IP40					
Impact Resistance (IK Rating)		-					
Product Finishing(Base)		White RAL 9016					
Materials of Optics		PS Nanotechnology (LGP)+PET					
Materials of Housing		PS (Diffuser plate) / Aluminium (Frame)					
Lifetime (hr)		50000h					
Glow wire test (°C)		-					
Operating Temp. (°C)		-20°C ~45°C					
Installation		Surface mount / Pendant / Recessed					

Linking Code / Unlinking Code Instructions

Linking Code Instructions

Linking failed if light is not blinking slowly, Please follow above steps again.
(Note: Light that have linked can't link again)

Unlinking Code Instructions

Unlinking failed if light is not blinking quickly, Please follow above steps again.
(Note: Light haven't linked that don't need to unlink)

Total load wattage		18W	24W	33W	30W	32W	48W

	EMC Immunity	EN61000-4-2,3,4,5,6,8,11; EN61547					

Installation Procedure General safety instructions

WARNING ⚡

- 1.Switch off before installation / maintenance.
- 2.Switch on only after complete installation and examination of the circuit.
- 3.Professional electrician for installation and maintenance only.

[EN] Turn Off power supply before starting any installation. Read instructions & check you have all the tools & accessories to complete the installation correctly.

To avoid the risk of personal injury or property damage from fire,electric shock, falling parts, cuts/abrasions and other hazards,please read the following notes before mounting this device.

- Read the instructions before mounting/installation and hand it over to the customer for storage after installation.
- Do not mount damaged products.
- No liability is accepted for improper installation or changes afterwards.
- We recommend wearing protective gloves to protect the luminaire and the surface from dirt and finger prints.
- Avoid looking directly into the switched on light source.
- Keep small parts and packaging material out of the reach of children.

Caution

- Pay attention to the local safety and accident prevention guidelines.
- Installation and maintenance may only be carried out by qualified personnel.
- Check that the system is switched off before installation.

Recessed into ceiling

1. Remove ceiling plaster slab.
- 2.connect power supply

3. Fix the panel light into right place

- 4.Stabilize the panel

Suspended

1. A. Fix the anchor into target place on the ceiling
B. Fix the installation mount on the ceiling with plastic anchor

2. Hang the panel to ceiling with suspended installation kits

3. Adjust the length of steel wire. Connect the power supply

Surface mounted

1. Fix the frame on the ceiling with screw

2. Pull down the side frame

3. Push the panel into the frame, connect the driver

4. Install the side frame

5. Turn on the power switch, finish the installation

The electrical connection of single led panel light;

1. Turn off power.

2. Wiring on connector and controller like step: A. B. C.

3. Turn on power.

- 1.Panel light packed by PE bag&EPE Foam
- 2.Inner Color package
3. Master carton

Support Tuya & 2.4G remote control, DMX system control.
SmartPhone APP control Via Wifi, Bluetooth and Zigbee. Support third party voice control.

Compatible with these 2.4G RF remote controls(Purchased separately)
