

How to measure your wrist size

Double check if this is printed correctly.
Use a credit card to compare with the above line
These should be the same length.

Cut out the ruler
Do not forget to cut the dashed line under 'Wrist size'
we will call this "slit".

Wrap the ruler around your wrist where
you would like to wear the bracelet
Make sure you measure skin tight.

Slide the arrow side trough the slit

The number closest to the slit is
your wrist size.

Visit the shop and see what bracelet size we
advice you to buy.
