

USER MANUAL WIRELESS CONTACT SENSOR

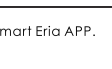

1. Place the batteries in the battery compartment.

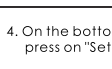

Connect with the ERIA hub

2A. Download the Adurosmart App from the Apple App Store or from Google Play or go to <http://adurosmart.com/adurosmart-app/>

Android

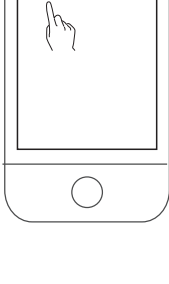

IOS

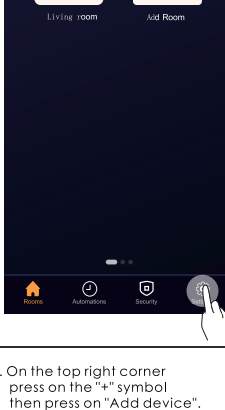

2B. If you have a **third party ZigBee compatible hub** then **proceed to step 9.**

3. Open the Adurosmart Eria APP.

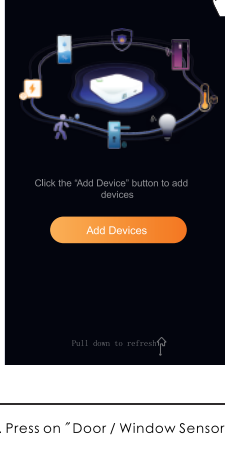

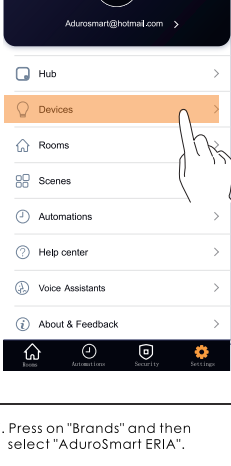

4. On the bottom right corner press on "Settings".

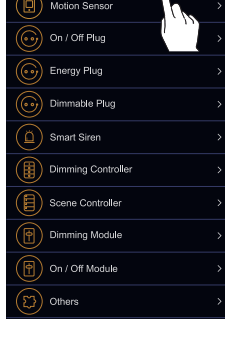

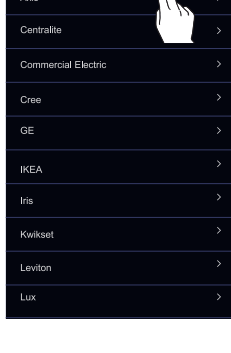

5. Select "Devices".

6. On the top right corner press on the "+" symbol then press on "Add device".

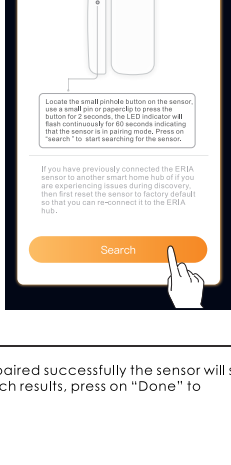

7. Press on "Brands" and then select "AduroSmart ERIA".

8. Press on "Door / Window Sensor".

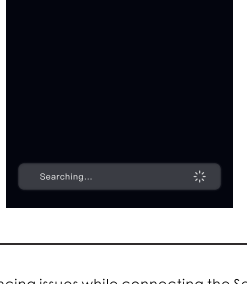

9. Locate the small pinhole button on the side of the sensor use a small pin or paperclip to press the button for 2 seconds, the LED indicator will flash continuously for 60 seconds indicating that the sensor is in pairing mode.

10. Proceed by pressing on "Search" to allow the Adurosmart ERIA hub to find the sensor, the LED indicator on the hub will **flash green** this indicates that the hub is searching for new devices.

9B. If you have a **third party hub**, then this is the moment to **initiate the search from your Smart Home hub app.**

11. When the sensor has been found and paired successfully the sensor will stop flashing and it will show up in your search results, press on "Done" to complete the process .
