D1101KH MODERN

IP VIDEO DOOR STATION

Surface-mount · 1 Call Button · Keypad Module

HOW DOES IT WORK?

Imagine, you are not at home and your children have locked themselves out or the courier wants to deliver a parcel. With DoorBird this is no longer a problem. Every time someone rings the doorbell you will get a push notification on your smartphone or tablet. Via the DoorBird App you are not only able to talk to the visitor but also see them live in HD quality. You will never miss a visitor again. With DoorBird you are on the move and yet at home, even if a burglar rings at the door to check if someone is at home.

SMART HOME STARTS AT THE FRONT DOOR

DoorBird is the smart solution for your house entrance. Simply connect your DoorBird IP Video Door Station to your smartphone and talk to your visitor - anywhere you are. The IP Video Door Station can be used as a stand-alone unit or can be integrated into an existing Smart Home platform. Even existing classic installations such as an electric door opener can still be used and controlled via the DoorBird App.

QUALITY MADE IN GERMANY

All DoorBird products are designed, developed and produced by Bird Home Automation GmbH in Berlin, Germany. We manufacture all products with the greatest care and precision, and deliver them to our customers all over the world.

Open API

Local interface for integration with third-party systems and SIP

Video and audio call

· On smartphones, tablets (iOS, Android), IP and landline phones (SIP)

Smart Transmission Mode (STM)

· Real-time audio / video communication, optimized for mobile devices via WiFi, 3G, 4G, 5G

Smart Home & NVR compatible

· Control4, Loxone, Crestron, Synology, AVM FRITZ!Fon, URC, QNAP, RTI, ELAN, Fibaro, Bang & Olufsen and others

Automatic door buzzer

Free visitor history

available

· For use in medical offices and office environments

⊢ HDTV Video

Light sensor

· Ultra wide-angle, hemispheric lens, 200°

4 Motion sensor with 4D technology

· Distance up to 6 m (19,7f) adjustable via App (interval: 1 m/3.3f)

Noise reduction and echo cancellation (AEC, ANR)

Individual action schedules, e.g.:

· Store still images for free,

optional video recording

- Trigger relay 1 for automatic door release Mo-Fr from 9 am until 4 pm when the call button is pressed
- · 4D motion sensor switches on external lamp between 9 pm and 6 am

Geofencing

Night vision

· Automatic door and gate opening when returning home

· With 12 Infrared LEDs

One freely configurable bistable latching relay

- · Control one door or gate via App
- · Status configurable via App: temporary or permanent circuit

Keypad Module

· More than 1000 individual PIN codes

· Configurable via App

· Individual events (e.g. switch a relay, HTTP(s) request)

Easy self-install

Quick installation via QR code scan

Easy connection to the network

· Connection via network cable (PoE, network data) or bell wire via 2-wire transformer

Configurable call button

· With backlit nameplate

Microphone

· Clear voice transmission
