Mars 11	Uranus 11

LED Technology

The Glow Fire LED line is equipped with a 2-dimensional flame pattern, which is perfectly modeled on real fire. Behind the glass of the fireplace sits a flame decoration of logs (transparent ceramics), transparent crystal stones or white pebbles. The decorations are transparent, which allows the light to pass through. The flame effect arises from a rotating axis. On this reflectors are fixed, which are illuminated differently due to the rotation. On a canvas behind the decorations, the beautiful fire picture is displayed.

Apollon

Dimension: 70 x 110 x 38 cm
Material: MDF
Color: White

Decoration: Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Ares

Dimension: 103 x 99 x 26 cm
Material: MDF
Color: White

Decoration: Wood Logs
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Chronos

(Facade as self-assembly kit)

Dimension: 102 x 129 x 29 cm
Material: MDF
Color: White

Decoration: Wood Logs
Heating Capacity: 0 / 1000/ 2000 W (adjustable)
Remote Control: Yes

Helios

Dimension: 100 x 109 x 26 cm
Material: MDF
Color: White

Decoration: Wood Logs
Heating Capacity: 0 / 750/ 1500 W (adjustable)
Remote Control: Yes

Hermes

(Facade as self-assembly kit)

Dimension: 112 x 135 x 31 cm
Material: MDF
Color: White

Decoration: Wood Logs
Heating Capacity: 0 / 1000 / 2000 W (adjustable)
Remote Control: Yes

Poseidon

(Facade as self-assembly kit)

Dimension: 94 x 109 x 26 cm
Material: MDF
Color: White

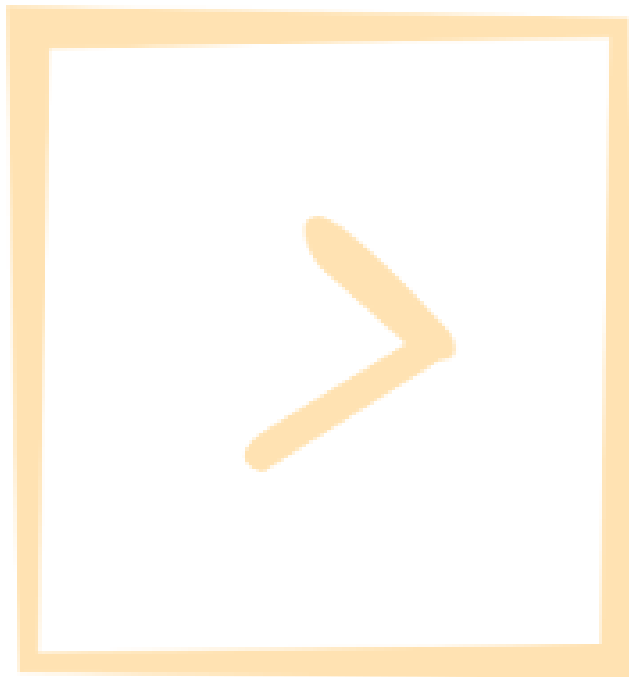

Decoration: Wood Logs
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Gaia

Dimension: 88 x 68 x 17 cm
Material: MDF / Glass
Color: White

Decoration: Wood Logs
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Venus

Dimension: 55 x 128 x 14 cm
Material: Metal / Glass
Color: White

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Jupiter (curved)

Dimension: 56 x 90 x 13 cm
Material: Metal / Glass
Color: Black, White

Decoration: Wood Logs
Heating Capacity: None
Remote Control: Yes

Neptun

Dimension: 45 x 84 x 14 cm
Material: Metal / Glass
Color: Black, White

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Pluto

Dimension: 49 x 110 x 14 cm
Material: Metal / Glass
Color: Black, White

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Mars

Dimension: 55 x 128 x 14 cm
Material: Metal / Glass
Color: Black

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Uranus

Dimension: 81 x 41 x 13 cm
Material: Metal / Glass
Color: Black

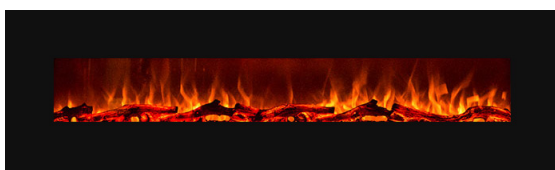

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

Mars XL

Dimension: 55 x 182 x 14 cm
Material: Metal / Glass
Color: Black

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

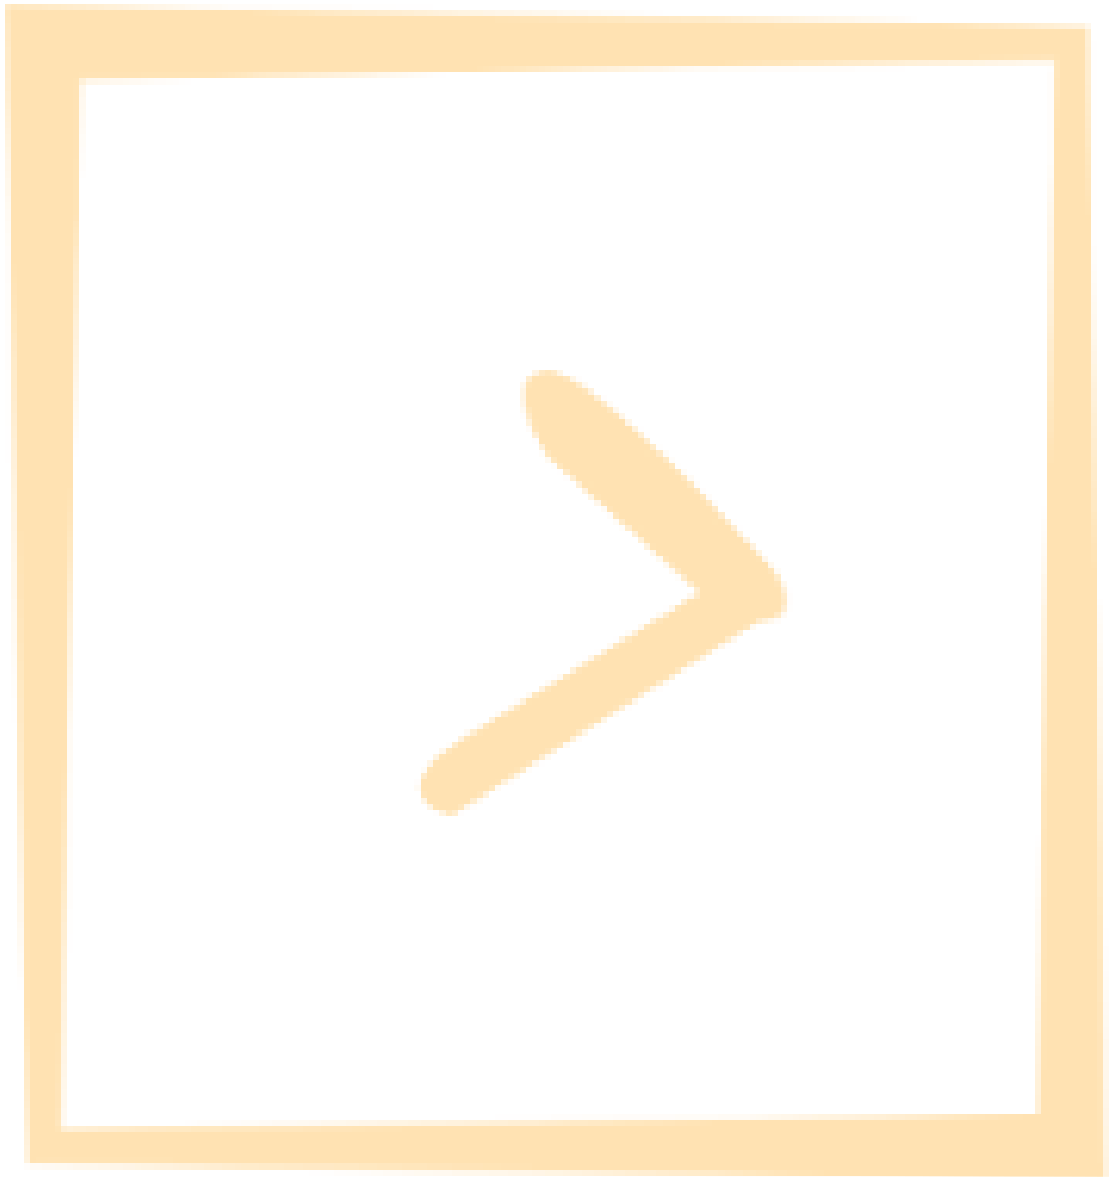

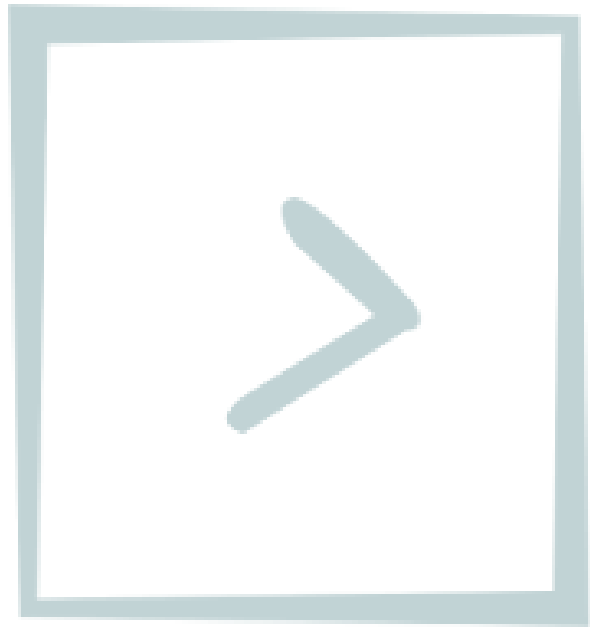

Saturn

Dimension: 55 x 241 x 14 cm
Material: Metal / Glass
Color: Black

Decoration: Wood Logs, Pebbles & Crystal Stones
Heating Capacity: 0 / 750 / 1500 W (adjustable)
Remote Control: Yes

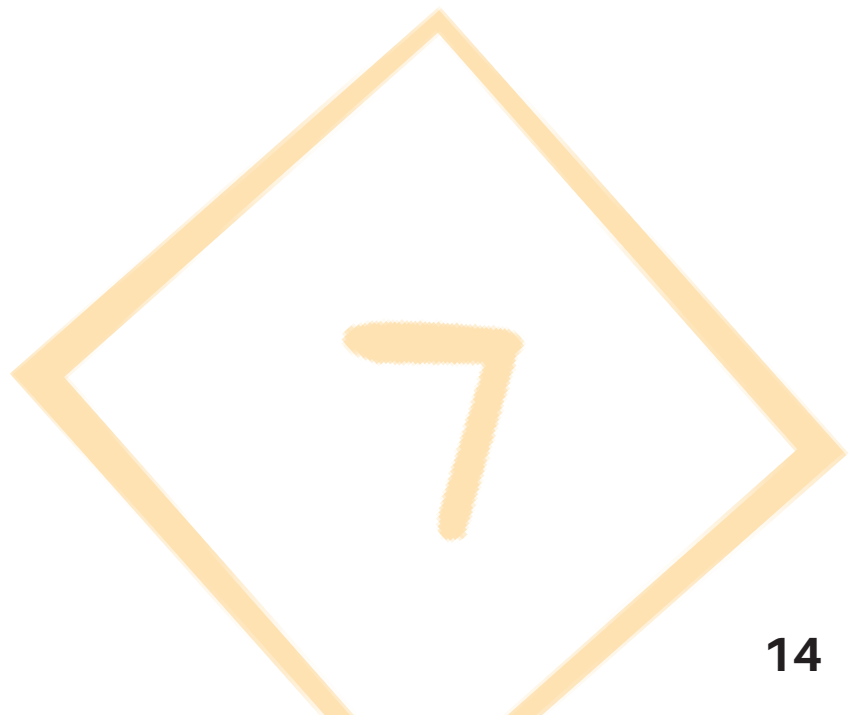

GLOW FIRE

Water Vapor Technology

The patented Opti-myst® water vapor technology offers deceptively real flames and an absolutely realistic fireplace experience. With the help of water vapor and light technology, a flame image is created that is hardly distinguishable from real fire. A water tank sits under a ceramic pottery. From this water tank ascending water vapor is generated. In combination with fire-colored light, the flame effect is complete. The integrated heating function, which can be switched in three stages, completes the perfect fireplace atmosphere. In our Glow Fire chimneys we use the cassettes with 40 and 60 cm width as well as complete inserts with heating function. The inserts are equipped with halogen lights. The facades are delivered as self-assembly kits.

Water Vapor Technology - Opti-myst®

Beethoven

Dimension: 170 x 50 x 50 cm
Material: MDF
Color: White

Insert: Opti-myst® Cassette 400
Heating Capacity: None
Remote Control: Yes

Hauptmann

Dimension: 90 x 110 x (35 + 10) cm
Material: MDF
Color: White

Insert: Opti-myst® Cassette 600
Heating Capacity: None
Remote Control: Yes

Kästner

Dimension: 89 x 70 x 35 cm
Material: MDF
Color: White

Insert: Opti-myst® Cassette 600
Heating Capacity: None
Remote Control: Yes

Lessing

Dimension: 90 x 110 x 35 cm
Material: MDF
Color: White & Stone Brick

Insert: Opti-myst® Engine 56-600 MB / Brick
Heating Capacity: 0 / 1000 / 2000 W (adjustable)
Remote Control: Yes

Mozart

Dimension: 120 x 110 x 35 cm
Material: MDF
Color: White

Insert: Opti-myst® Cassette 600
Heating Capacity: None
Remote Control: Yes

Schiller

Dimension: 120 x 120 x 35 cm
Material: MDF
Color: White

Insert: Opti-myst® Cassette 600
Heating Capacity: None
Remote Control: Yes

GLOW FIRE

Goethe

Dimension: 70 x 100 x 30 cm

Material: MDF

Color: White

Insert: Opti-myst® Cassette 600

Heating Capacity: None

Remote Control: Yes

Humboldt

Dimension: 67,5 x 100 x 30 cm

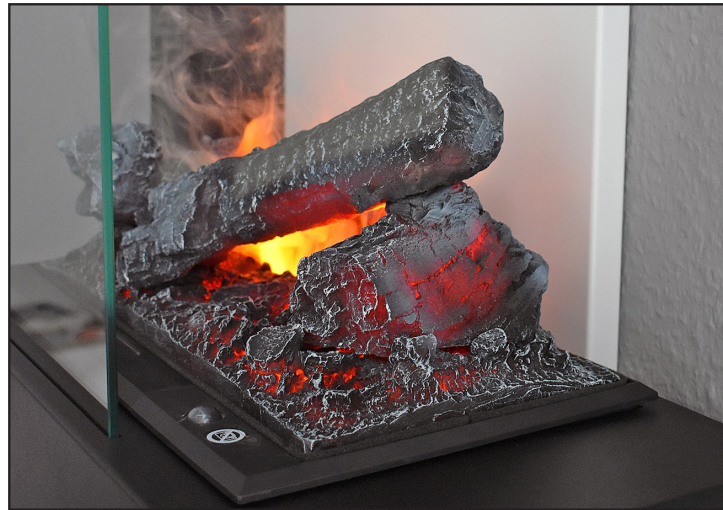

Material: MDF

Color: White

Insert: Opti-myst® Cassette 600

Heating Capacity: None

Remote Control: Yes

Wall

Dimension: 75 x 65 x 25 cm

Material: MDF

Color: Black, Silver, Brown

Insert: Opti-myst® Insert (OMC 400)

Heating Capacity: None

Remote Control: Yes

Electric fireplace accessories

An electric fireplace spreads some cozy atmosphere, without smoke nor soot. The realistic flames can be supplemented with a crackling effect. In this way, the fireplace becomes an all-round romantic experience.

Crackling effect for gas, ethanol and Electric fireplace + 1GB micro SD card

The crackling effect sound box brings pleasant fireplace cackling to your home. It is a perfect addition to create a realistic impression of fire. The crackling effect can be used for gas, ethanol, and electric fireplaces.

Sound module: Speaker box

Effect: Fire crackling

Dimensions: 5 x 5 x 5 cm

Colors: Silver, Black

Functions: on/off, volume

Safety: CE certified

Headphone connection: Yes

Battery runtime: 5 hours

Sound format: Brilliant MP3 sound

Connection: Bluetooth

Recharge: USB PC or USB adapter

Port: Micro USB, Aux, Line In

Accessories: USB cable, 1GB Micro SD card, USB cable, sound module, speaker cable
