Important compatibility information

Some Nissan models were supplied with different gear selector mechanisms depending on engine, production date, market and gearbox specification.

The TL4N-Shift is compatible with vehicles equipped with the original gear selector lever **OEM 328968611R**.

Confirmed - This application is listed by 4H-TECH as a confirmed TL4N-Shift application.

Despite the application list, production changes are possible. If there is any doubt about compatibility, we recommend sending us your VIN before ordering so we can verify the original gear selector.
