HARMONY

About Strucomix Original

Cavalor Strucomix Original is a fibre-rich muesli for healthy horses full of vitality. It contains long alfalfa fibres which stimulate chewing and intestinal motility. Contains pre- and probiotics for the development of a healthy intestinal flora, providing the basis for natural resistance. Oat-free formula. With puffed cereals for good absorption and easy digestion. Delicious muesli containing fibre, puffed cereals and herbs, making it suitable for picky eaters.

Cavalor Strucomix Original is a level 1 feed for horses receiving recreational to light training or sensitive horses.

What makes Strucomix Original unique?

Very tasteful

Totally delicious muesli containing puffed cereals, dried carrot pieces and herbs. More than suitable even for the fussiest eaters.

Optimal gut health & immunity

Probiotics promote good digestion. Probiotics stimulate the development of good intestinal flora. Intestinal flora plays a vital role in controlling and regulating the immune system. It protects the body against the "harmful" outside world. This is why it is vital to maintain healthy intestinal flora to ensure the best possible state of health and performance.

No oats

Oats are a cereal that can be used as an energy source in a muesli for competition horses. It quickly releases lots of energy. This is not needed for recreational horses, or for horses who do not need high energy levels.

Extra fibers

Adding long fibre means that the horse has to chew for longer and increases saliva production. Saliva is not the only benefit of chewing longer. It also causes natural tooth wear, alleviates boredom and ensures that the feed is consumed more slowly. Long fibres also promote intestinal motility, which improves digestion.

Advice

Feed as you need

The foundation of good nutrition for your horse is adequate roughage and access to fresh drinking water. Supplement this base with concentrates or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune.

Feeding recommendations for Cavalor Strucomix Original

We recommend a minimum of 300 g to maximum 700 g per 100 kg body weight per day. For a 600 kg horse this means a minimum of 1,8 kg and a maximum of 4,2 kg per day. Divide the concentrate feed over several portions per day, preferably after feeding roughage.

TIP

Not all feed scoops are the same size. Weigh the contents of your feed scoop so that you know exactly how much your horse is getting.

Composition

Linseed husks / Wheat middlings / Beet molasses / Spelt / Barley flakes / Wheat bran / Puffed barley / Puffed maize / Puffed wheat / Linseed / Pea flakes / Alfalfa pellet / Alfalfa stems/ Spelt hulls / Broken oil seeds / Soya oil / Soya bean hulls (produced from genetically modified soya) / Rape seed meal / Wheat / Herbs / Carrot, dried / Sunflower seed meal / Calcium carbonate/ Sodium chloride / Hydrated magnesium silicate
