

Essential Pellet

Roosens Horsefood Essential Pellet is specially designed for horses and ponies with low to light activity. This 6mm pellet provides just the right amount of energy to keep your horse or pony in top condition, without unnecessary energy spikes.

Its high-fiber formulation, with high-quality ingredients such as alfalfa, optimally supports healthy digestion and stomach function. This oat-free formula ensures that your horse remains controlled and calm, while still being provided with all essential nutrients, such as vitamins A, D3, E.

Roosens Horsefood Essential Pellet is the perfect maintenance feed to supplement quality roughage. It supports your horse's overall health and condition, keeping it fit, healthy and balanced.

General information
