

User Manual – Installation of Separate Lamp Holders

Please read the following steps carefully before proceeding with the installation and use of the separate lamp holders.

Step 1:

You will need the following items: a separate lamp holder, a piece of cable, a hex key (Allen key), 14 mm

Step 2:

Unscrew the cover from the lamp holder.

Step 3:

Press the cable onto the lamp holder.

Step 4: Using the hex key, press the cable down on both sides where the metal pins are located.

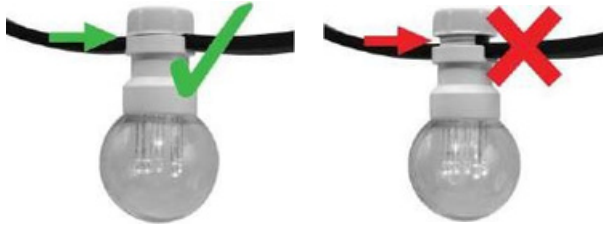

Step 5: Place the cover straight onto the lamp holder and tighten it firmly using the hex key.

Important!

Make sure that the cap is fully tightened.

For additional safety, you can seal the connection with adhesive so that the fitting cannot be opened again.

The result:

Enjoy!
