

Installation Manual – LED Christmas Tree

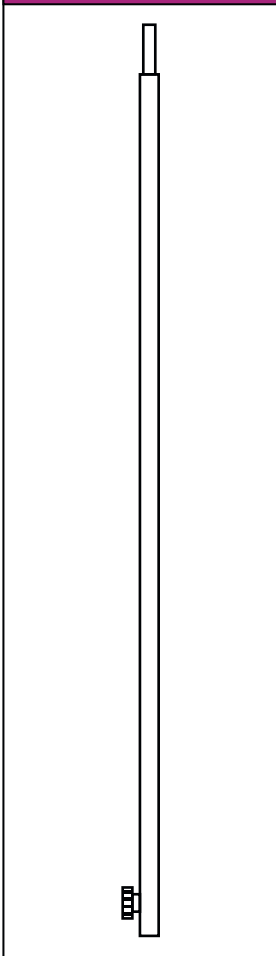

ENG

PARTS

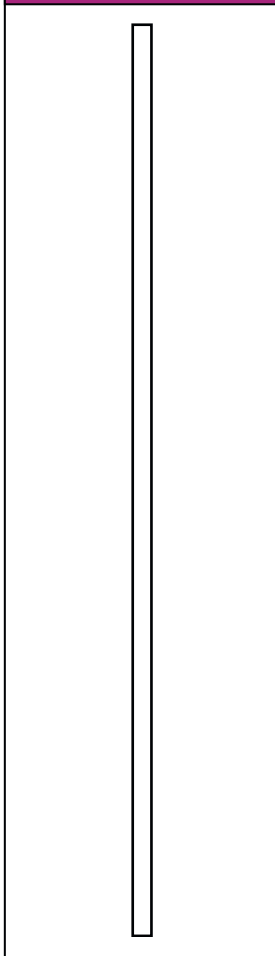

1: Ground stake

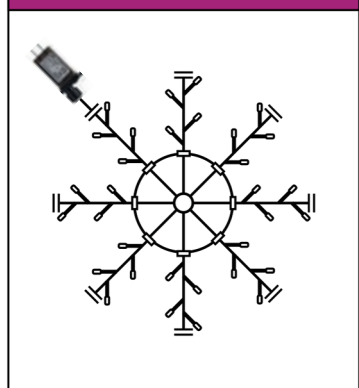

2: Middle section

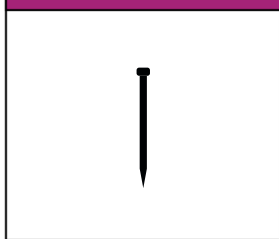

3: Top section

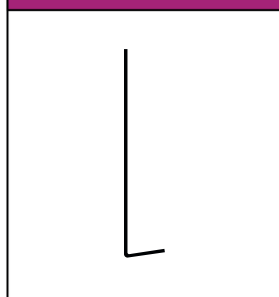

4: Ring with light strings

5: Tie wraps

6: Metal ground peg

7: Remote control

Instructions

Step 1:

Secure the ground stake (1) into soft ground such as grass or soil. Use a hammer to firmly fix the ground stake into the ground.

Step 2:

Loosen the screw on the middle section (2). Connect the middle section (2) to the ground stake (1) and tighten the screw to secure both parts together for added stability.

Step 3:

Connect the top section (3) to the middle section (2). The ground stake (1), middle section (2), and top section (3) are now assembled.

Step 4:

Place the ring with the pre-assembled light strings (4) onto the top section (3).

Step 5:

Unroll the light strings and secure each string to the ground using a cable tie (5) and a metal ground peg (6).

Step 6:

If applicable, place the LED star on top of the top section (3).

Step 7:

Plug the power cord into the power outlet. You can use the button on the transformer or the remote control to select the different lighting functions.

Remote control explanation (7):

Aan	Turn the lights on
Uit	Turn the lights off
Timer	Set a 6-hour timer. When the timer is activated, a green indicator light will turn on.
