

## Z-catch Cut-Out Template Instructions:

1. Print PDF
2. Use Scissors to Cut the black outline of the Nozzle Removal Tool.
3. Make sure 3D printer is off
4. With the Outline of The Nozzle Removal Tool Bring this up to your 3D printer Heater Block.

### IMPORTANT!!

5. Both The Heater block and Nozzle of your 3D printer must appear inside the green box (see picture for reference) for the tool to be compatible with your 3D printer.
