

Please fill in the required vehicle information in the schedule below. This information will be mentioned on the temporary registration part 1 which will be provided with the transit plates. Most of the vehicle specifications can be found on the registration paper or COC. The letters and/or numbers behind the vehicle specifications are the same on each registration paper.

When choosing the delivery date, please take in mind that we can only process orders before 12:00 with delivery the next 1 – 2 working days.

| Vehicle specifications:                                                                                                           | Code on registration: |  |
|-----------------------------------------------------------------------------------------------------------------------------------|-----------------------|--|
| Vehicle Type:                                                                                                                     |                       |  |
| VIN:                                                                                                                              | (E)                   |  |
| Brand:                                                                                                                            | (D.1)                 |  |
| Type:                                                                                                                             | (D.3)                 |  |
| Axle configuration:                                                                                                               | (L/9)                 |  |
| Empty weight:                                                                                                                     | (G)                   |  |
| Total weight:                                                                                                                     | (F.2)                 |  |
| Horsepower (KW):                                                                                                                  | (P.2)                 |  |
| Engine capacity (cm3):                                                                                                            | (P.1)                 |  |
| Axle distribution (KG):                                                                                                           | (8.1/8.2/8.3)         |  |
| First registration date:<br>(fill in <b>new</b> if unregistered)                                                                  | (B)                   |  |
| Amount of seats:                                                                                                                  | (S.1)                 |  |
| Fuel type:                                                                                                                        | (P.3)                 |  |
| Colour:                                                                                                                           |                       |  |
| Additional remarks:                                                                                                               |                       |  |
| Desired delivery date:                                                                                                            |                       |  |
