

Genus® | COBRA

PIONEERING INSECT LIGHT TRAP UTILISING
PATENTED **TRANSLUCENT TECHNOLOGY™**

TRANSLUCENT
TECHNOLOGY

JET PROOF

Using patented Translucent Technology™, Genus® Cobra produces faster flying insect catch when compared against other non-translucent fly traps of a similar power.

- Translucent Technology™ catches more flies, faster – **260% more flies after 30 minutes***
- Quick release front cover for fast & easy servicing
- Optional IP45 rated unit for use in wet & wash-down areas
- Low running costs and reduced CO₂ emissions
- Designed and manufactured in the UK

*Compared to a conventional non translucent unit of a similar power.

Genus® COBRA JET

APPLICATIONS

Restaurants

Bars

Fast Food

Supermarkets

Commercial Kitchens

Food Production

Proven in laboratory tests, Translucent Technology™ makes Genus® Cobra™ the most effective flying insect control unit of its kind, consistently outperforming competitor units by offering more than twice the UVA light output.

The Genus® Cobra™'s translucent cover and internal reflector panels give 'all-round' UVA transmission and fewer blind spots for a larger UVA footprint and maximum attraction area. It is even effective against smaller, hard to catch species like Fruit Flies.

In public areas, Genus® Cobra™ provides silent, discreet, out of sight control with Translucent cover complementing any décor.

For back of house locations, the option of 30 and 45 Watt lamps and the IP45 certified Genus® Cobra™ JET unit for wet-wash areas makes it the ideal solution in any operating area.

Easy access 'hands-free' servicing and wipe-down cleaning ensure continuous assured control and smart, hygienic appearance at all times.

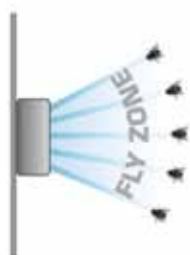

Features and Benefits

- Translucent Technology™ catches more flies, faster - 260% more flies after 30 minutes*
- Optional IP45 rated unit for use in wet & wash-down areas
- Quick release front cover for fast & easy servicing
- Low running costs and reduced CO₂ emissions
- HACCP compliant glue board system with large catch area

Patented Translucent Technology™
Creates faster fly catch and improves food safety.

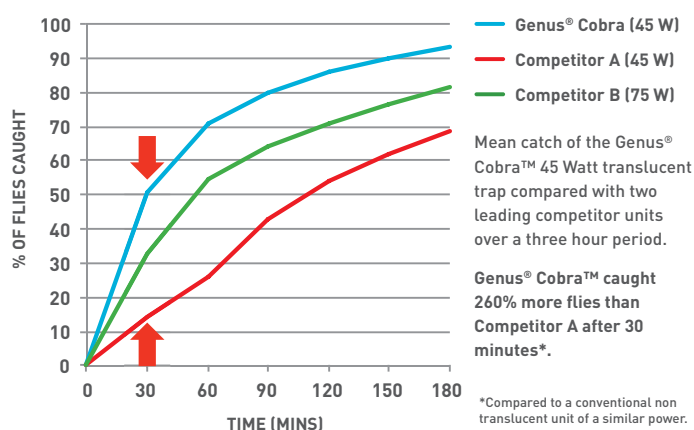

Non-translucent unit
Limited range of attraction

Translucent unit
All round attraction

Superior Fly Catch Performance
