

Fresco® Élite

A MULTI-FUNCTION BLAST CHILLER FOR THE HOME

The magic of swift food chilling

 **irinox**
The Freshness Company®

Fresco® Élite

Combi oven/blast chiller

We are proud to introduce you to **Fresco® Élite**, the appliance for magic, swift food chilling. You're sure to fall in love at first sight with its exclusive design, and once you've tried it, you'll never again want to do without it in the kitchen.

Fresco® Élite is the only household appliance that can **triple the shelf life of fresh or cooked food**, inspiring you to unleash your culinary potential and create flavours never tasted before.

If you are looking to cook and store your dishes like a pro, bake your favourite salmon fillet at low temperature or simply eliminate Anisakis from fresh fish tartare, Fresco® Élite is what you need. With Fresco® Élite you will finally be able to enjoy the delicious taste of freshly picked summer strawberries in the midst of winter, and bring out of the fridge vegetables cooked five days before, still bursting with flavour and colour.

YOUR TIME IS PRECIOUS. MAKE THE MOST OF IT.

Prepare, cook and store away when you can, eat when you feel like it.

Preserving freshness is easier than you think

BLAST CHILLING

Blast chill any type of cooked food and store it safely in the refrigerator for up to seven days.

Food blast chilled with Fresco® Élite stays fresh and lasts perfectly for seven days instead of the usual two!

SHOCK FREEZING

Shock frozen food keeps perfectly in the freezer for up to six-eight months.

Fresco® Élite rapidly cools your raw or cooked food down to freezer temperature, without it changing consistency or losing quality upon thawing. Nobody will ever tell the food you are serving has actually been in the freezer.

DELICATE FREEZING

An absolutely essential function that freezes more delicate types of food for later storage in the freezer. Fresco® Élite delicately freezes even the most delicate food, including items that are particularly sensitive to freezing and thawing. Your delicately frozen leavened or unleavened bakery products will not lose any of their taste, texture or flavour.

DRINKS COOLING

Should unexpected guests drop by, make sure your drinks are of the right serving temperature.

Fresco® Élite chills any type of drink in just a few minutes. Forget about cramming the fridge with bottles, and be ready to serve your wine chilled at just the right temperature in no more than 15 minutes.

CONTROLLED THAWING

A function that gently thaws food without spoiling it.

Controlled thawing preserves the texture of food, which will look and taste as good as just cooked or bought.

CUSTOMISED PRESERVATION

Special food requires special temperatures. Now you can set just the right preservation temperature for your food, from -20°C to +65°C. Got some leftover artisan ice cream at home? Set your Fresco® Élite on -12°C and enjoy super-creamy ice cream for days to come.

SLOW COOKING AT LOW TEMPERATURE

Slow, delicate, low-temperature cooking is ideal for boosting the flavour of your meat and fish dishes. At last, Fresco® Élite gives you a delicate, truly healthy cooking method that keeps your meat and fish perfectly tender to the bite and full of flavour. With all the juices staying in the meat and fish, there will be no need for loads of condiments.

READY MEAL

Always wanted to come home and find your meal ready for you to enjoy? Fresco® Élite can also be your personal butler and produce a steaming hot dish at the exact time you want one! Go on a worry-free outing, leave your dish in the blast chiller and set the time you will be back.

NATURAL PROOFING

Fresco® Élite creates the right proofing environment for your dough.

Whether it's for bread, pizza or French croissants, the dough will rise at controlled temperature and humidity, yielding lighter, more digestible products.

Fresco® Élite

THERE'S CLEARLY A DIFFERENCE.

Meat, fish and vegetables in all their glory, even after storage.

Spinach chilled at ambient temperature and stored for two days in the fridge

Spinach blast chilled with Fresco® Élite and stored for five days in the fridge

Healthy eating
is something you can afford
every day

Blast chilling and slow cooking at your service

Fresco® Élite is the only appliance that can **rapidly chill or freeze** hot, just-cooked food and thaw it under controlled conditions. It can also **cook meat and fish at low temperature**, proof bread, pizza and bakery dough, serve you with a piping hot dish whenever you want, preserve food at the ideal temperature and chill wine and drinks.

Reasons to choose Fresco® Élite

Savings

Finishes:	
Brushed stainless steel outer finish	
Dark grey toughened glass door	
Dark grey toughened glass control panel	
Brushed stainless steel handle	
Stainless steel back	
Mechanical door stop with 160° max. opening angle	

Customer testimonials

“I love raw fish. Thanks to Fresco Élite I can eliminate germs from fish and make tartare, sushi, and thinly sliced raw fish, confident that they’re completely safe! What’s more, since I first came across it, low-temperature cooking has become my only way of cooking meat and fish ”

Alessandro - Personal trainer

“I’m very keen on cooking, and Fresco Élite has become indispensable for me! I cook my family’s meals once a week and blast chill them prior to storing in the fridge for up to seven days. Long-term storage does not affect food quality, which remains intact. On top of that, I am able to offer my family a varied menu every day. Leftovers? Of course I shock freeze them! Once they’ve been regenerated, no-one notices they’ve been in the freezer.”

Emilia - Housewife

“Because of my job I know Irinox very well. It was a pleasant surprise to find out that Fresco Élite now provides home kitchens with the same functions once exclusively available to professional cooks! ”

Antonio - Chef
