# Installation Emulator For MERCEDES Euro 6

## MERCEDES EURO 6 ADBLUE REMOVE EMULATOR INSTALLATION

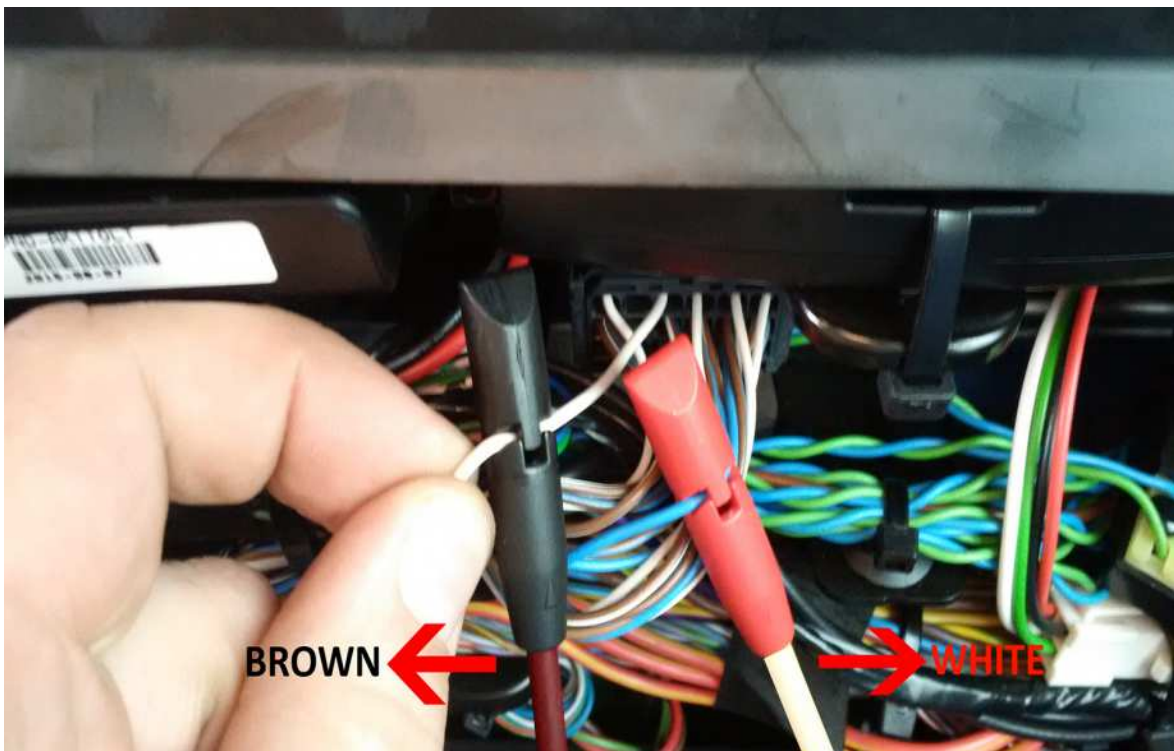

Behind fuses in the middle is a plug - as in the picture (not right like in manual - correct is middle) Connection colors – White(Emulator side) with Blue(Truck Side) and Brown(Emulator side) with White(Truck Side)

Red wire from emulator connection with any (+) after ignition

Black i GND

Next step is remove Fuse

F23 Thats all

You should definitely cancel the DPF after installing the Adblue Removal Emulator!
