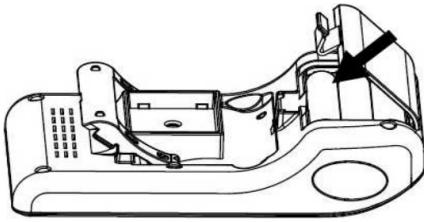
Batteries

When the battery is low, a low battery indicator will be displayed in the lower right corner of the panel. When replacement with new batteries is necessary, use only alkaline AAA size batteries (3 pcs). Press lightly and pull the battery compartment cover lever to open the battery compartment. Place the batteries according to the polarity as shown inside the battery compartment, and close the cover.



Color mode

Using this mode, you can call up 3 different modes according to what gives the best image result.
1 Full color
2 Enhanced positive image (black and white)
3 Enhanced negative image (white on black)

Play
