## MADE IN THE UK!

Our KAITE SPRAY DRYING LANCES are designed and manufactured in the UK. Hand polished and checked at our facility in Liverpool, we ensure every lance assembly leaves us finished to the highest standard.

The KAITE logo consists of the word "KAITE" in a bold, white, sans-serif font, centered within a solid grey rectangular box.

**KAITE**

The background of the lower half of the page is a faded, high-angle photograph of an industrial facility. It shows a large, circular structure with multiple spray nozzles mounted on a central platform, with jets of liquid being sprayed outwards. The scene is dimly lit, with some light reflecting off the surfaces.
