- Amazingly light weight and easy to drive.
- Fast & easy to assemble & disassemble.

Lithium Vogue

The new Lithium Vogue is a wonderfully comfortable and fashionable scooter in our range with full adjustable suspension on the front and the back which provides a smoother, and more comfortable ride. The Lithium Vogue comes as standard with a 10Ah Lithium battery, a super lightweight battery box weighing just 3kg, making it extremely easy to carry to your charging point. For those who want to travel extra miles or would just like the assurance of larger batteries, there is the Endurance 21Ah Lithium Battery Box option, weighing in at 4.5 kg The Vogue can be disassembled into five parts in just 30 seconds which aids with lifting and ensures a quick and safe lift into and out of your car. With great legroom this scooter is also perfect for taller users giving a comfortable ride for all. Another detail is the secure-grip delta handlebar, which gives you full control over manoeuvring the scooter. The scooter also has a powerful LED light, ideal for low light driving conditions.
