Small detail, big impact: the perfect door hardware as jewellery for your home

A door handle is something you touch multiple times a day, yet it's often an afterthought. We believe it deserves more attention, so you can enjoy every detail of your home.

Details make the difference

When renovating, it's easy to focus on the big picture, but it's really the small details that complete a home. Door and window hardware are often overlooked, yet they're the touches that can truly transform a space. Restoring existing doors with timeless design can bring your renovation together, down to the last detail.

Everything under one roof

De Oude Deurklink specialises in 1930s-style door hardware, but we offer much more: window fasteners, cabinet knobs, espagnolette bolts, and other accents to create a seamless, cohesive look throughout your home. We also partner with De Oude Schakelaar—together, they're the perfect match! These details bring a serene, luxurious feel of classic style to a present-day interior.

Arjan

Matte black

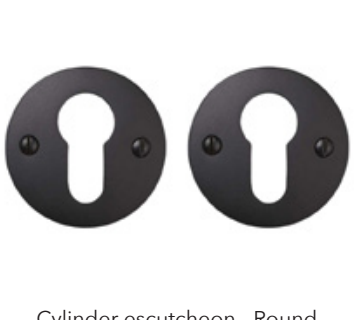

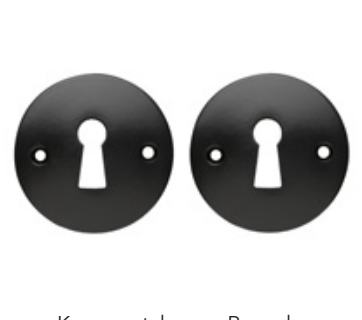

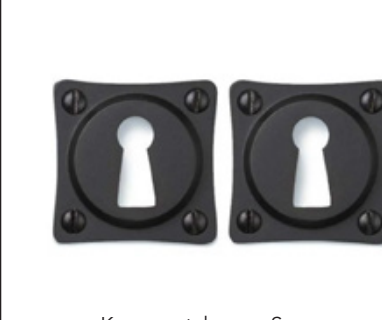

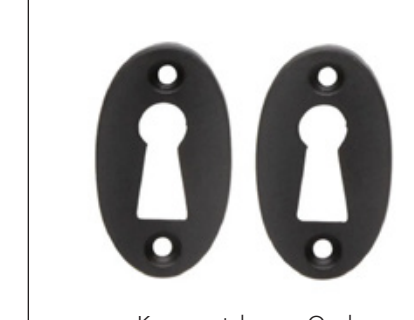

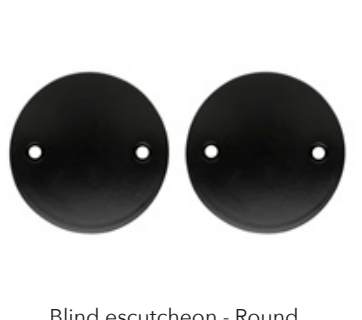

Matte black is a timeless finish that fits seamlessly into any interior. Thanks to our own designs, we offer a wide range of hardware to bring authentic details to your home. This includes not only door handles, but also toilet locks, window fasteners, cabinet knobs, furniture handles, and espagnolette bolts.

- Inspired by the classic Ton model door handle
- Extra scratch-resistant with a double powder coating
- Handles made from genuine Bakelite
- We keep our in-house brand items well-stocked

Nickel

At De Oude Deurklink, you'll find a wide selection of classic nickel door and window hardware – beautiful details that truly act as jewellery for your home. Nickel is also the finish originally used in many period homes, making it the perfect choice for authentic restorations.

- Door handles available in both sprung and unsprung options
- Easy to install
- Premium quality
- Brass handle with a Bakelite grip, finished with two layers of polished nickel

Tumbled brass

Our tumbled brass products undergo a unique tumbling process and are purposefully left uncoated. This special treatment accelerates the natural ageing process, giving each piece a beautiful, matte, darkened finish—ideal for those who love an authentic look in their home.

- Antique brass look
- Wide range to complete your interior
- Accessible pricing
- Pairs well with any colour door or window!
